Great looking and feature rich app

“ This app has a very striking visual appearance - all the top tourist destinations are represented as attractive panels that you can easily scroll through. I also really liked how detailed each tourist destination listing was, I could call for information or visit the website or find information about their hours or ticket prices and click the address so I can get directions right away. Made my life very easy. I don't plan and this app saved me and made all the information available for me. I didn't have to carry a travel guide or maps. Everything is included in the app. Thank you!!! Great app.
