

POOCH PLAY

PoochPlay app tracks your dog's physical activity (even without a tracker!)

Dogs make our lives better and we wanted to return the favour.

That's why, a team of vets and engineers came together and created PoochPlay. - A complete dog wellbeing management app and a wireless dog activity tracker.

PoochPlay app is available for free to download and use.

- PoochPlay app tracks your dog's physical activity (even without a tracker!)
- It monitors and manages your dog's weight
- Based on your dog's age, weight, conditions, activity levels and the brand of food it already eats, PoochPlay recommends how much food they need every day.
- It learns and notifies you about your dog's daily, periodic, vaccination and de- worming schedules.

We appreciate that every dog is unique, PoochPlay worked with vets and scientists to create an optimum algorithm that checks various details about your dog and works out a personal activity plan. The more information you enter about your pooch, the more specific the results.

The technology built to bring us closer together, can take us further away from the people closest to us....

Lets use technology and social media in the right way

Why are we different?

We're really trying to build you a simple, beautiful but most importantly USEFUL app

Our scheduling tool - 'Find a time that works' - makes it easier to see when everyone is free

Our voting function - means you don't need to spend hours deciding where to go

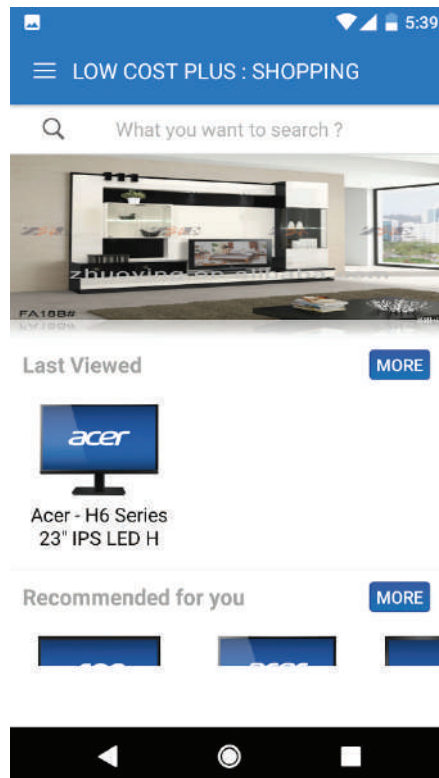

Our chat - means you don't need to set up a new messaging group every time you get together

Everything in on place!
