# CANARA HSBC OBC - CHOICE mNEWS

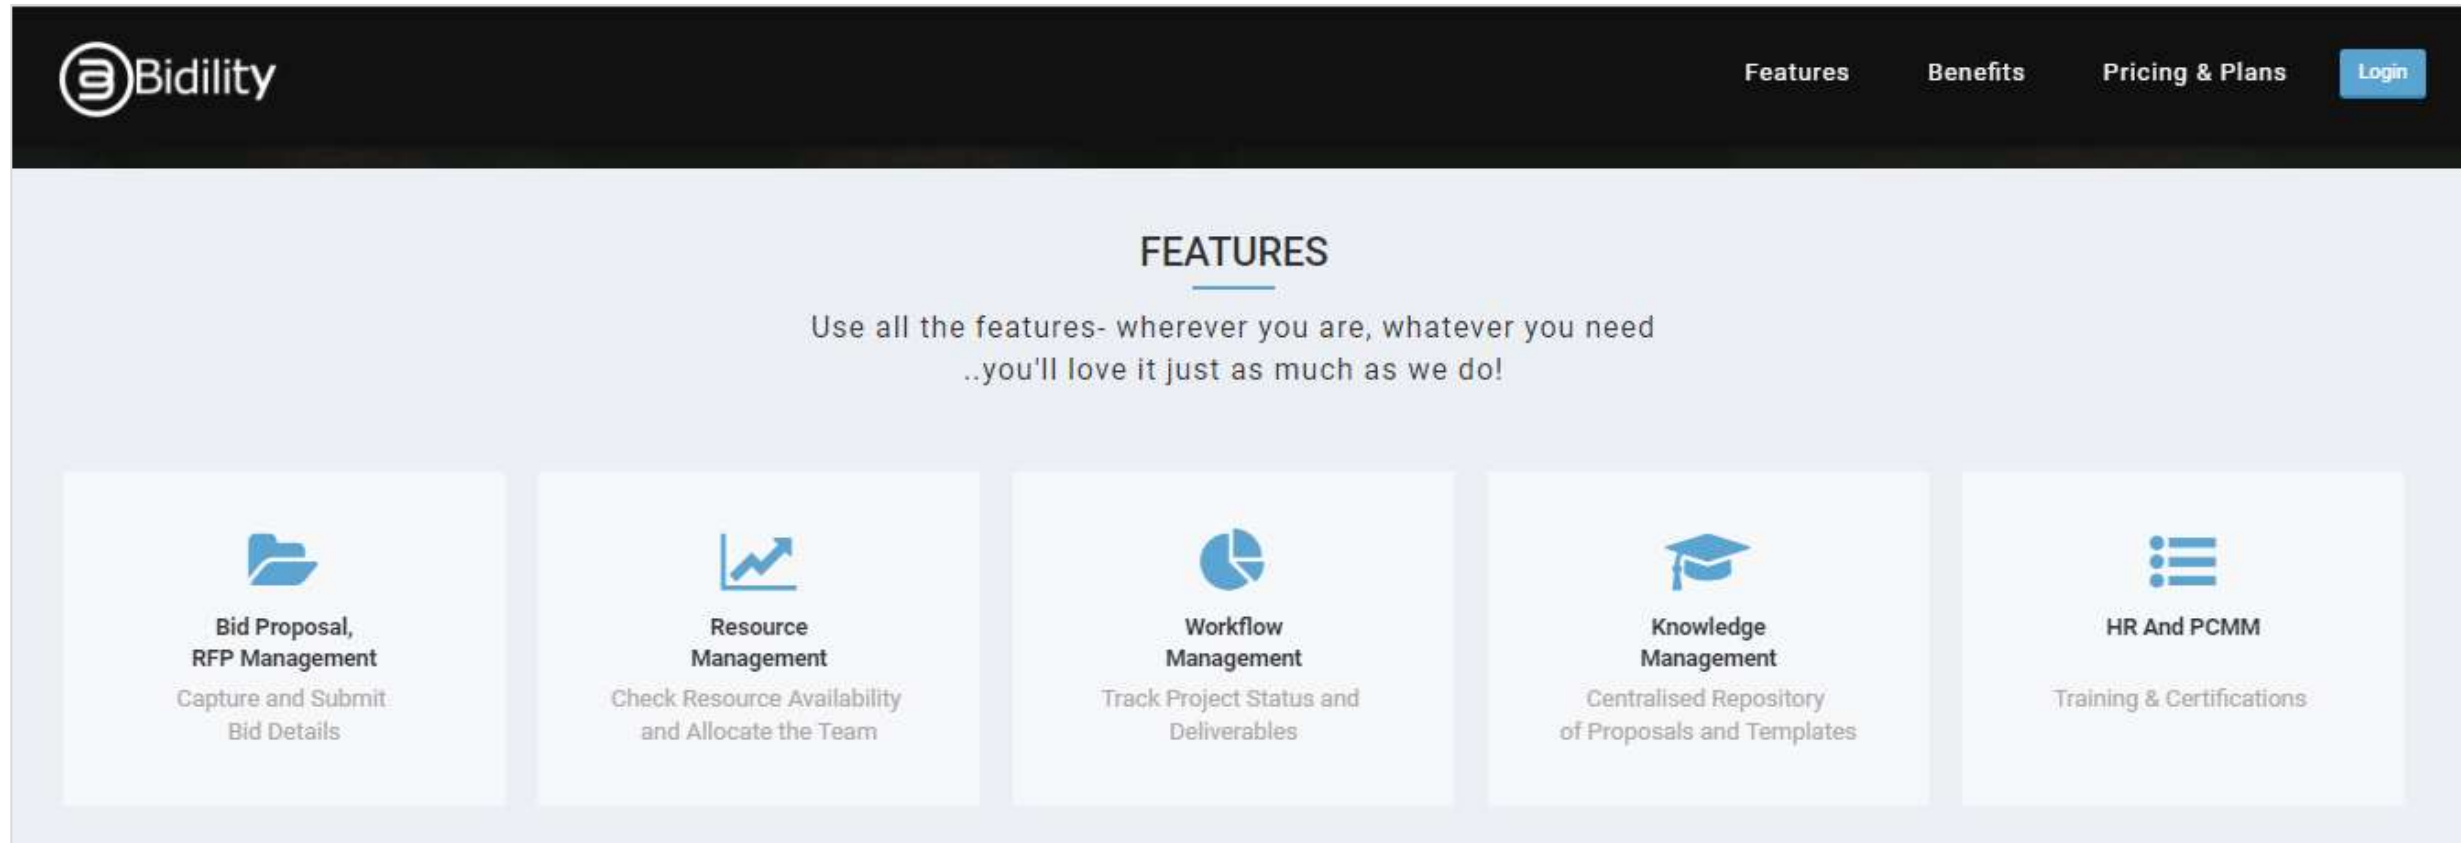

- CHOICE mNews Application is based on Android and iOS operating system.
- Application greatly enhances and widens the employees' information horizon through a simple and user-friendly interface.
- The mobile Application gives the user, the flexibility to operate and access company updates on the go at their convenience, when at work or while commuting.

# ERICSSON – ENSIGHT (Since 2016)

- **Ensight** Application is a mobile app for Ericsson to capture & study mobile usage pattern of consumers.
- It measures precise change in consumption behavior of smartphone user
- Explore new app behaviors by studying usage of various digital services on smartphones
- Understand new apps used by smartphones to unravel evolving consumer trends in India & diverse smartphone users residing in the operators network

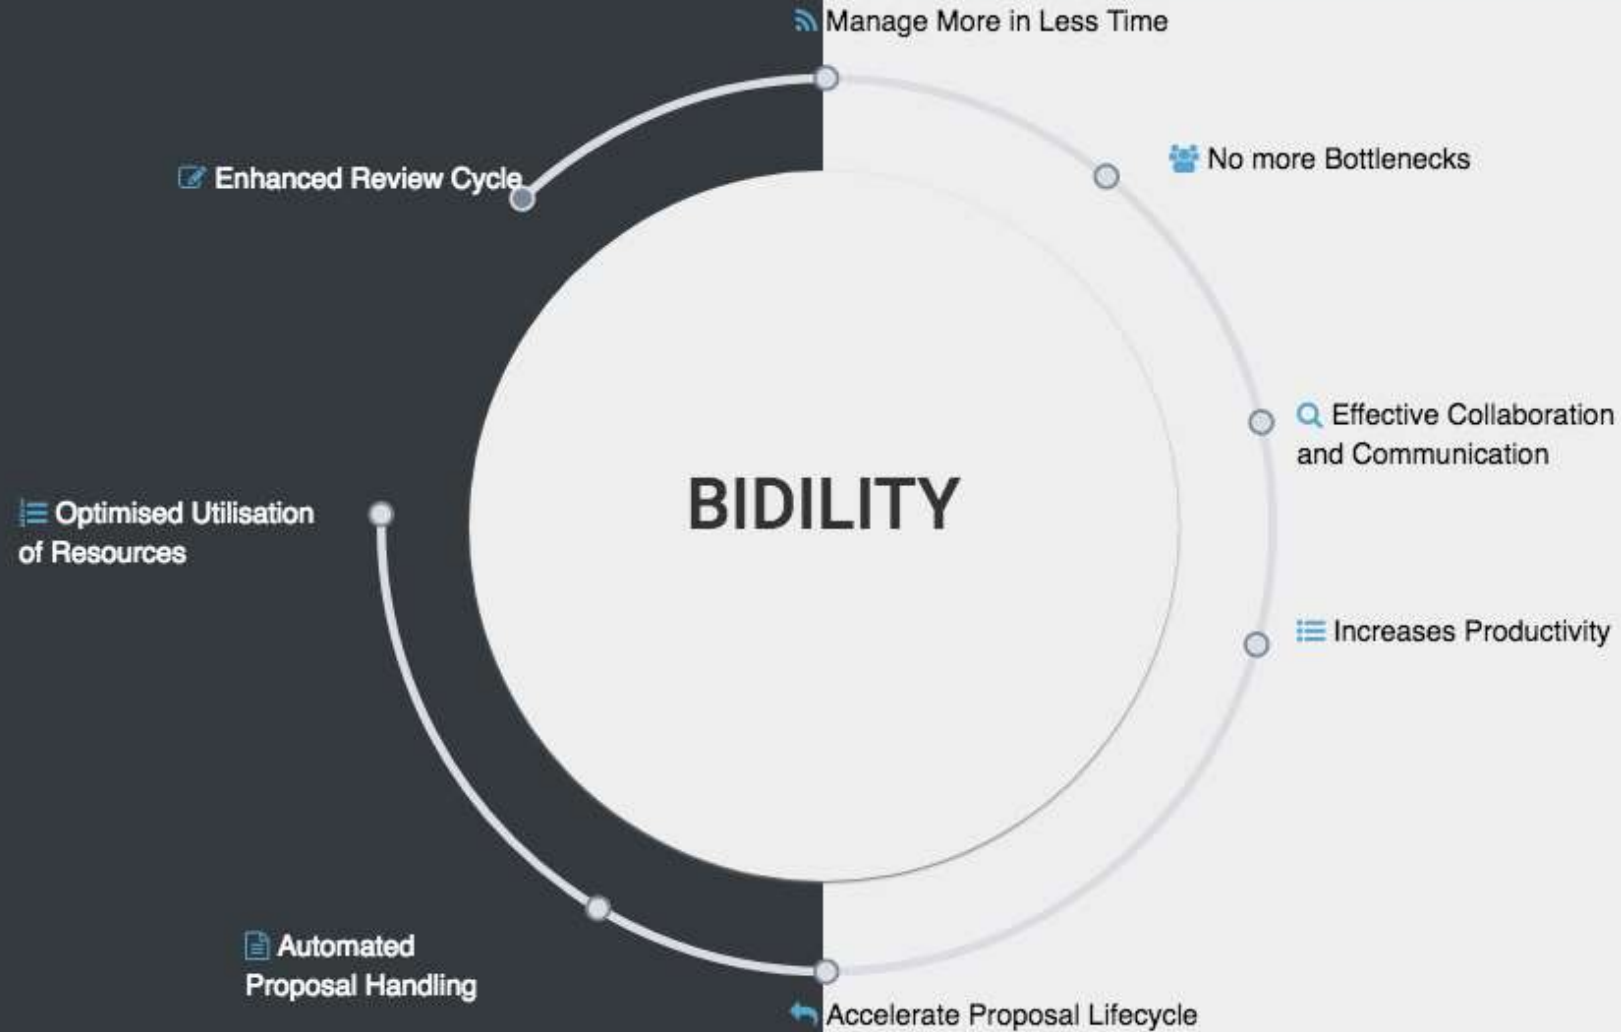

The screenshot shows the Bidility website's 'FEATURES' section. At the top, there is a dark navigation bar with the Bidility logo on the left and links for 'Features', 'Benefits', 'Pricing & Plans', and a 'Login' button on the right. Below the navigation bar, the 'FEATURES' title is centered, followed by a sub-headline: 'Use all the features- wherever you are, whatever you need ..you'll love it just as much as we do!'. The features are presented in five light blue boxes, each with an icon, a title, and a description:

- Bid Proposal, RFP Management**: Capture and Submit Bid Details (Icon: Folder)
- Resource Management**: Check Resource Availability and Allocate the Team (Icon: Line graph with upward arrow)
- Workflow Management**: Track Project Status and Deliverables (Icon: Pie chart)
- Knowledge Management**: Centralised Repository of Proposals and Templates (Icon: Graduation cap)
- HR And PCMM**: Training & Certifications (Icon: List with three horizontal lines)

- Helps the subject matter experts/ bid leads to map a Bid project and view its impact at the entry point in the system itself.
- 5 Regions and 1100 users

# SKILL SMART

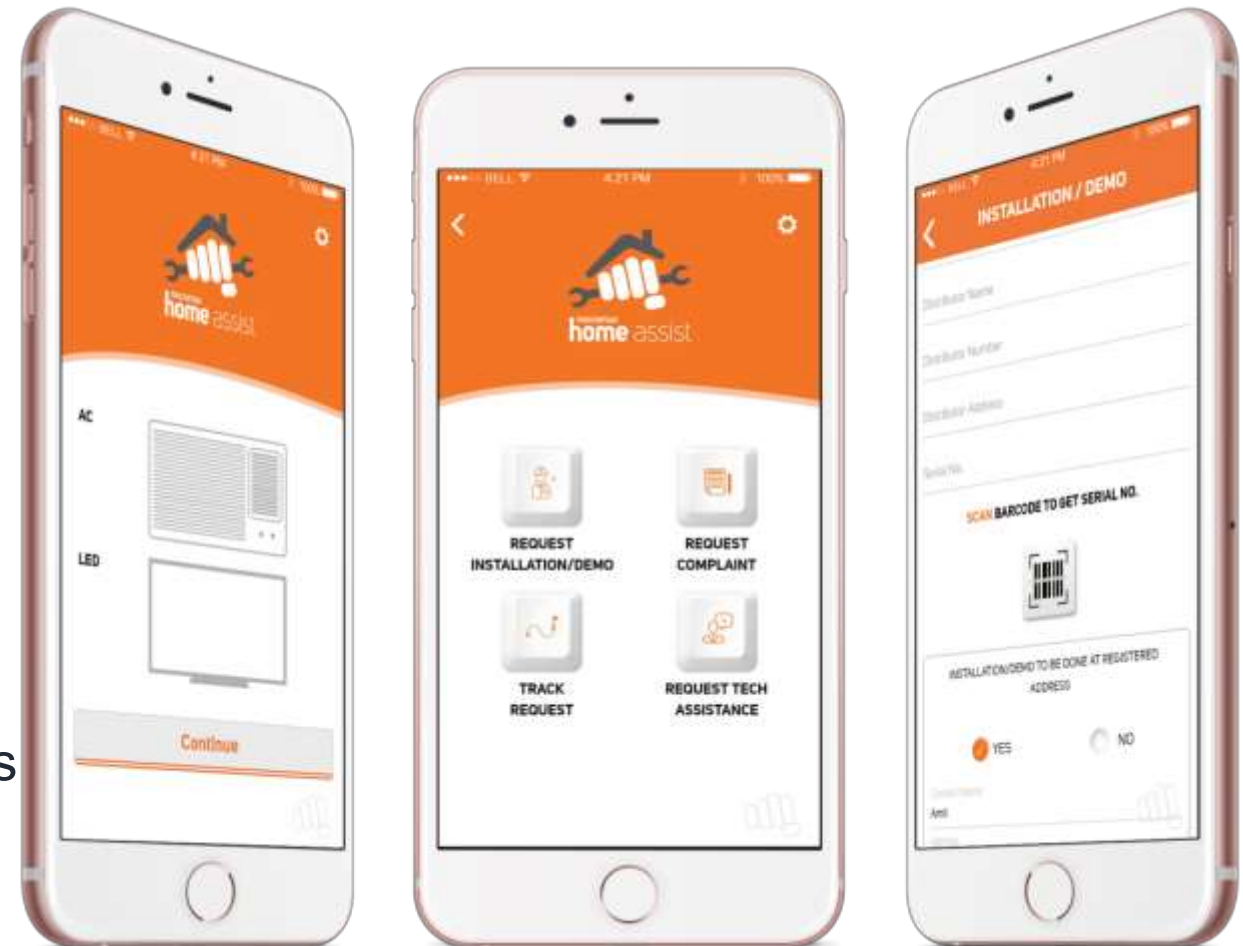

- **Skill Smart** Application provides a self-learning platform to unskilled workforce for improving their skills, which in turn would enhance their employability.
- Each skill is authored and reviewed by experts keeping in mind the intended audience, thus providing a rich learning platform.
- Efforts have been made to ensure the exposure to user with plenty of aids (images, audios, graphics) to make the learning as effective as possible.
- The application is designed keeping in mind the interests of the users in remote areas who doesn't have an active internet connection at all times.

# ANNEXURE- OTHER APPLICATIONS

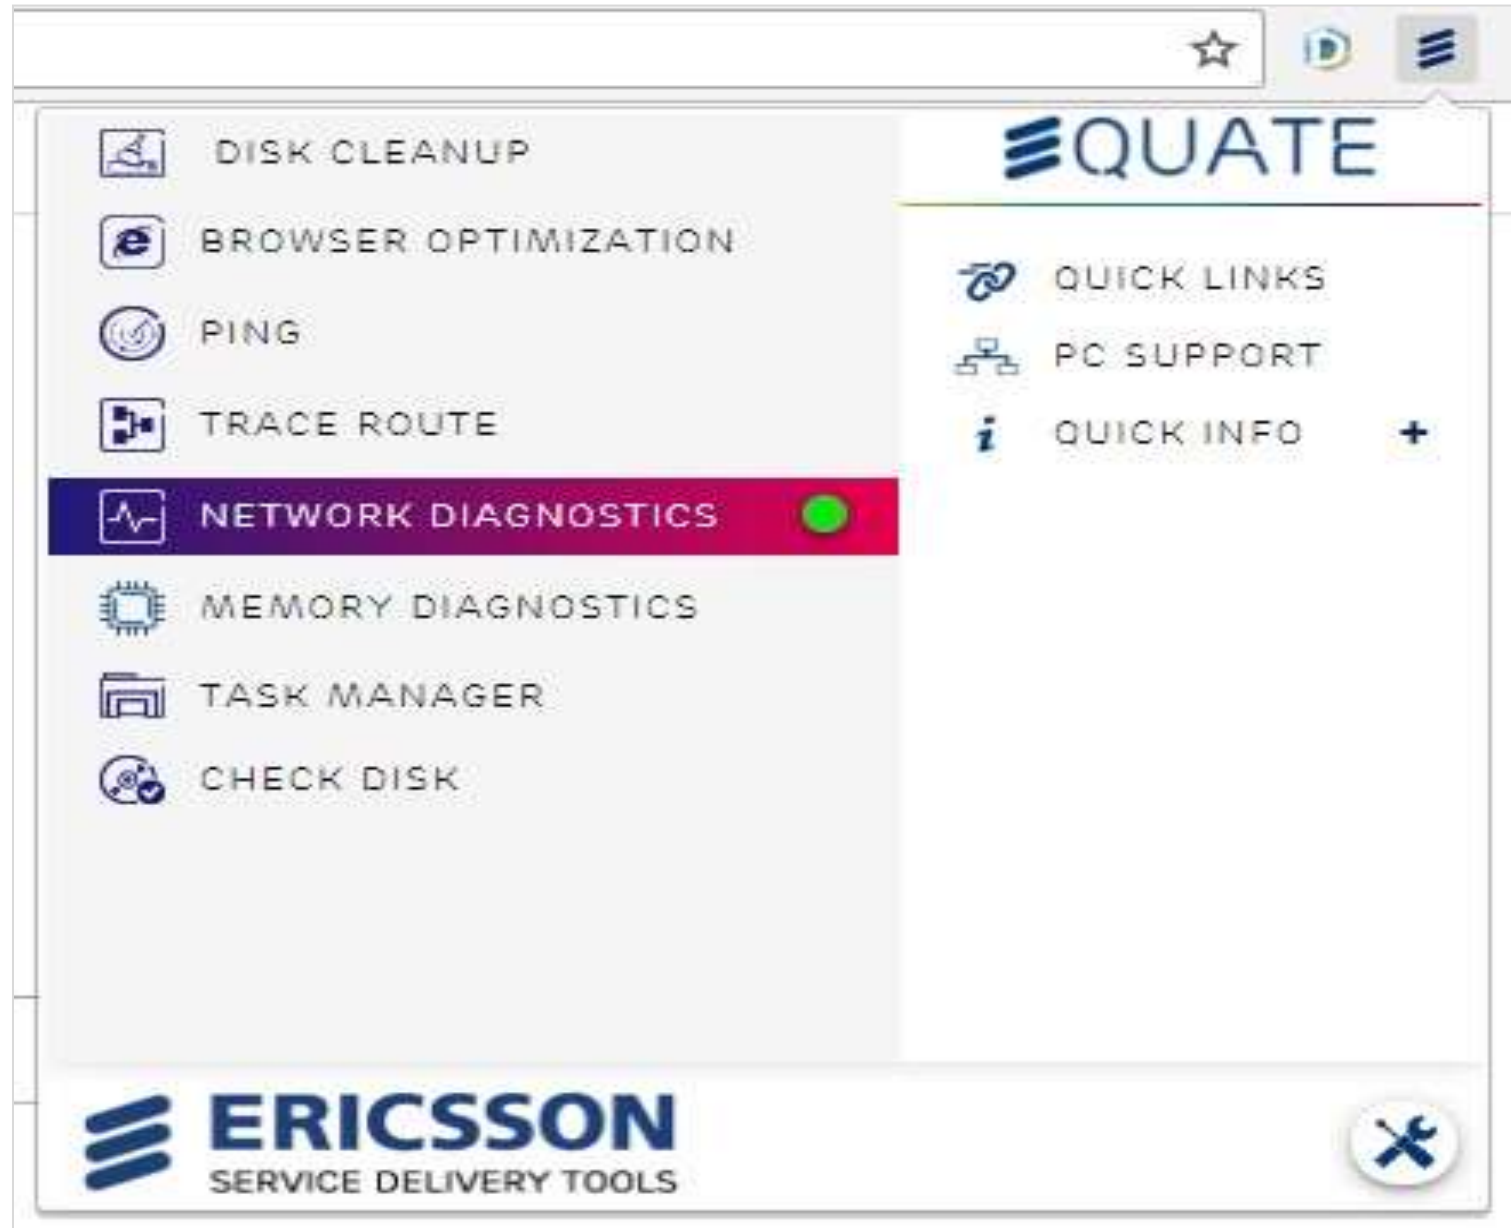

# MICROMAX - HOME ASSIST

- **Homeassist** Application is developed for consumers using Micromax products like LED & AC.
- Users can report their issues/complaints through the application.
- They can also track the status of their complaints & request call back.
- Users can scan the barcode of the products and fill up the form.

# EQUATE – ERICSSON QUICK ASSIST TOOL EXTENSION

- Web based plugin extension tool that provides the following features to its users:
  - System health check and troubleshooting features.
  - Quick access to links of various commonly used portals.
  - Dashboard with updates of ongoing incidents/ changes.
  - Useful information for operations teams.
- EQUATE can be managed by an Administrator using the EQUATE ADMIN MANAGER web portal
- EQUATE also provides an MIS report page where the reports and statistics of the tool usage can be viewed.
