

# CITRONIUM

## FRESH SOFTWARE SOLUTIONS

Citronium - a team of experienced software developers. Since 2007 we create solutions for international markets. We are the real experts in the sphere of mobile and web application development, websites, data storage and processing system, online booking system, facility management, geoinformation system and interactive navigation. Citronium company has built up a reputation of a serious, stable and reliable partner. We do our best to find the perfect solution for clients' aims and to promote their business to a new level.

### WE DEVELOP:

Mobile and web applications  
Websites of any complexity  
Data processing systems  
Software for Mac, Windows  
Web and polygraphic design  
User interface

# OUR PRODUCTS:

## PLOTPAD

Cloud-based solution for the construction sphere. Available for three mobile platforms, desktops and laptop computers. Aimed at designer supervision and quality control automatization.

<http://plotpad.com>

## PLANSTERY

It's a multipurpose solution to convert a 2D drawing file into interactive plan. It allows to visualize and observe objects in real time.

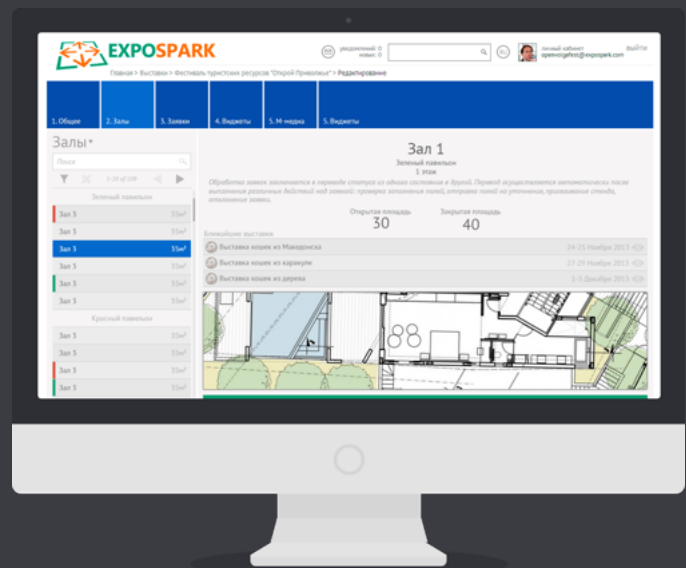

<http://planstery.com>

## EXPOSPARK

A tool for the effective interactive exhibition management, with the reflection of any changes on the website in real time.

<http://expospark.com>

# MOBILE APPS:

## WIKIMART

Shop online, no matter where you are. It's the main principal of the mobile app Wikimart. "Friendly" UI makes it as easy as possible.

<http://goo.gl/JbWD7L>

<http://goo.gl/JfuArv>

## CRIGHT

The mobile app "CRight" broadened opportunities of the CRight desktop project and made the work with the digital content delivery even more intelligible.

<http://goo.gl/PDBdxo>

<http://goo.gl/pxbLAa>

## WRIGGLE

Our team and Gainly Ltd. created the exclusive app for "last-minute" restaurant offers. The start-up rose from obscurity and got into the headlines of all famous mobile app reviews.

<http://goo.gl/a2WPTB>

# MOBILE APPS:

## SUNNY

The Mobile App for the Hotel "Sunny" is a convenient location guide for the customers of the hotel.

<http://goo.gl/3zE1RY>

<http://goo.gl/pYemRq>

## FIZIONOM

The latest research data in the field of "Psychological typologies" became available for everyday using.

<http://goo.gl/2MR9Ty>

<http://goo.gl/1vVLqc>

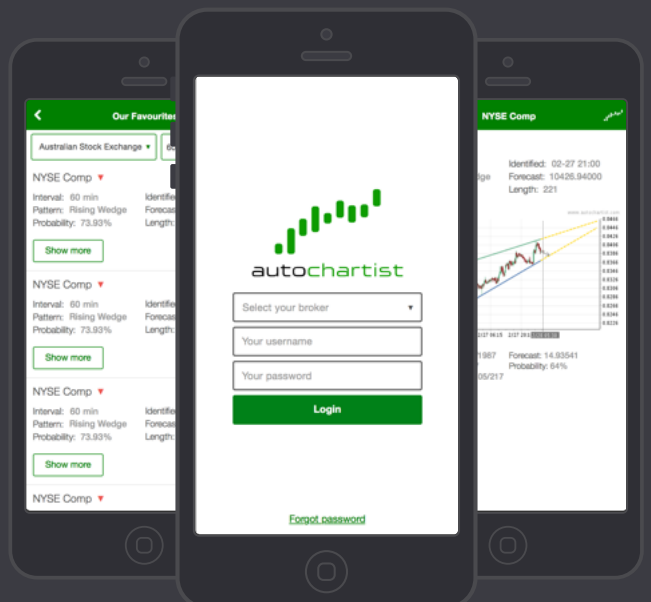

## AUTOCHARTIST

In association with the Autochartist company we developed the app which "tanked" the whole chart pattern recognition platform for Brokers and Market Makers to the mobile market.

<http://goo.gl/iIxENc>

# OUTSOURCING:

## APPLICATION CRAFT

Mobile and web application development platform (on demand of Application Craft UK Ltd, UK).

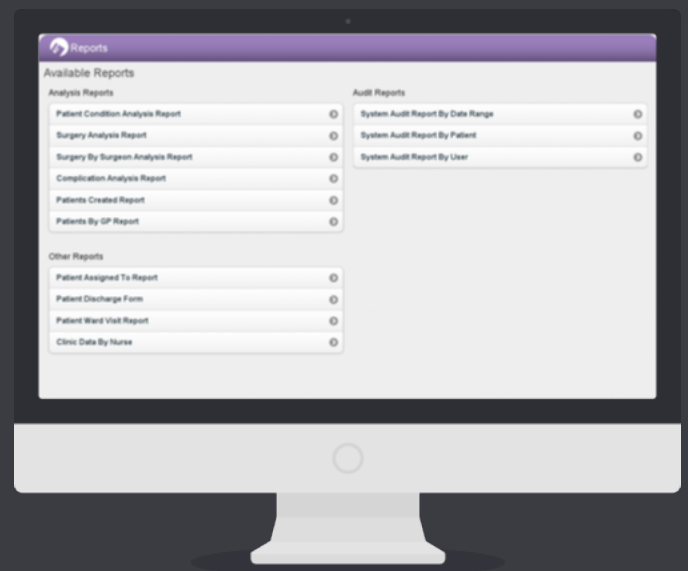

## RUBY LOGIC

Smart learning management system. It simplifies activities of both teachers and students by providing them with interactive student's books, activity books and worksheets.

## SALTS

Hospital management system. The full database of all patients of the clinic.

## OUR TESTIMONIALS:

### MARK KOTIK

Project Manager at Robert Bosch Battery Systems (formerly Cobasys)

I contracted Citronium to develop software to manage a large and complex advanced battery system that needed to be scalable and adaptable to changing design engineering functions. We were able to establish a remote connection for debugging and testing the software on the prototype battery systems even though we were on opposite sides of the world.

In the end the software delivered met - and in many cases exceeded - the expectations at the beginning of the project. Timeliness during the course of the project was excellent and responses to technical inquiries were answered in terminology that was easily understood - despite my lack of expertise in software development.

I highly recommend Pavel and the Citronium team for software development!

### RANDY LEDOUX

CEO at CAFM Resources

We've done several related projects with the Citronium team. They are very professional, easy to work with, and responsive to any bugs/modifications that may arise. Based on their skill sets and responsiveness we will be working with them long into the future.

### FREDDY MAY

Founder, CEO at Codio

I would like to accord a big thank to the team Citronium for being so cooperative in implementing highest professional software solutions for my company. I was surprised with having such results in shortest period of time from not a big company. Your team has manifested the ultimate operational excellence and personal competence and responsibility. The modern design and a new vision of software solutions made all components are truly visually appealing.
