COMPANY PROFILE

Company Overview

Appeonix is an IT solution company that is about to revolutionize the world of Information Technology. Appeonix can deliver projects on time and with precision. They can perform very well under pressure and over the years have actually mastered the art of offering quality services in a comparatively shorter period of time.

This may be a new company but, it is the regeneration of another IT solutions company called Techsrishti which justifies the name. The brains behind it are veterans of the trade and have been serving clients from different backgrounds quite effortlessly. The founders are Software Engineers from reputed colleges and have served some well established IT MNC's before forming what is known as Appeonix today.

Appeonix provide good service for each and every client with best quality without compromising it at any point of time with competitive prices and also an excellent customer service that works 24/7 irrespective of the time zones.

The company offers a wide range of services like Web Applications Development, Mobile Apps Development, Online mobile applications, Mobile Games, Customized Mobile Applications and branding are a few of the many online services. The mission of the company was defined – to contribute to forward-looking transformation of the society through software development.

Appeonix is an organization that believes in ICU, which stands for:

I - Identity

C – Creativity

U – Uniqueness
