

List of Applications

- **WhosThat Private Gossip – Social Networking App**

Feel like telling a friend about something anonymously? Wanna know what friends think of you? Create groups in which the group members can post namelessly! No outsiders at all! Just your own friends from your own contacts...

WhosThat lets you decide which of your contacts can text you anonymously, so there is just you and your friends.

Say you create a group of 5 friends. Now any of these 5 posts in the group, all 5 can see, but not know who exactly has posted. Wow! Should be too much fun right? Freely speak out your mind to friends...and don't worry, no one will know who gave out the gossip!
