

About Emyoli's Founder:

Emyoli was founded by Aviad (Evi) Rachmilewitz, a seasoned technology specialist with over a decade of hands-on industry experience. Before launching Emyoli, Evi held positions with several established technology companies, including Mercury Interactive and Comverse Technologies. Throughout his career, Evi's roles have spanned software development, product management, and more. Evi holds a BA in Computer Science from the Interdisciplinary Center in Herzliya and an Executive International MBA degree from the Kellogg-Recanati program
