OodlesTechnologies

Transforming Ideas Into Innovative Solutions Using Cutting Edge Technologies.

■ 10+ Years In Industry   ■ 500+ Projects ■ 300+ Experts ■ 300+ Satisfied Clients

WHO WE ARE

Founded in 2009, OODLES TECHNOLOGIES is a leading Information Technology & Consulting company that aims to increase overall value of enterprises through innovative technology solutions.

Since its inception, we have been focused to solve clients' most complex innovation and business challenges through a unique combination of our technology expertise & deep industry insights.

With Skilled expertise and seamless cross-platform functionality, we offer a diverse range of software solutions through a unique combination of expertise, deep industry insight, process excellence and a passionate workforce.

Our design, marketing services, and development teams evaluate multiple design and technology options to create flexible, powerful, and scalable solutions that generate significant ROI. We have dedicated teams for each of these service lines - Technologies | Design Studio | Marketing | Blockchain | ERP | AI | Data Privacy and Protection

Oodles is a balanced blend of creative Minds: Smart & talented technocrats, Creative Architect, & Industry expertise. Using our expertise in bleeding edge technologies, we aid enterprises, software product companies and startups in their pursuit of excellence and quest for differentiation globally.

2

Our Vision & Mission

Incubating Brilliant Minds to Build Tomorrow's Solutions

Our vision is to become a worldwide hub for emerging technologies and specialists who use them to create intelligent solutions for a smarter world. To achieve this goal, we work closely with our clients and their stakeholders while striking technology partnerships with leading names.
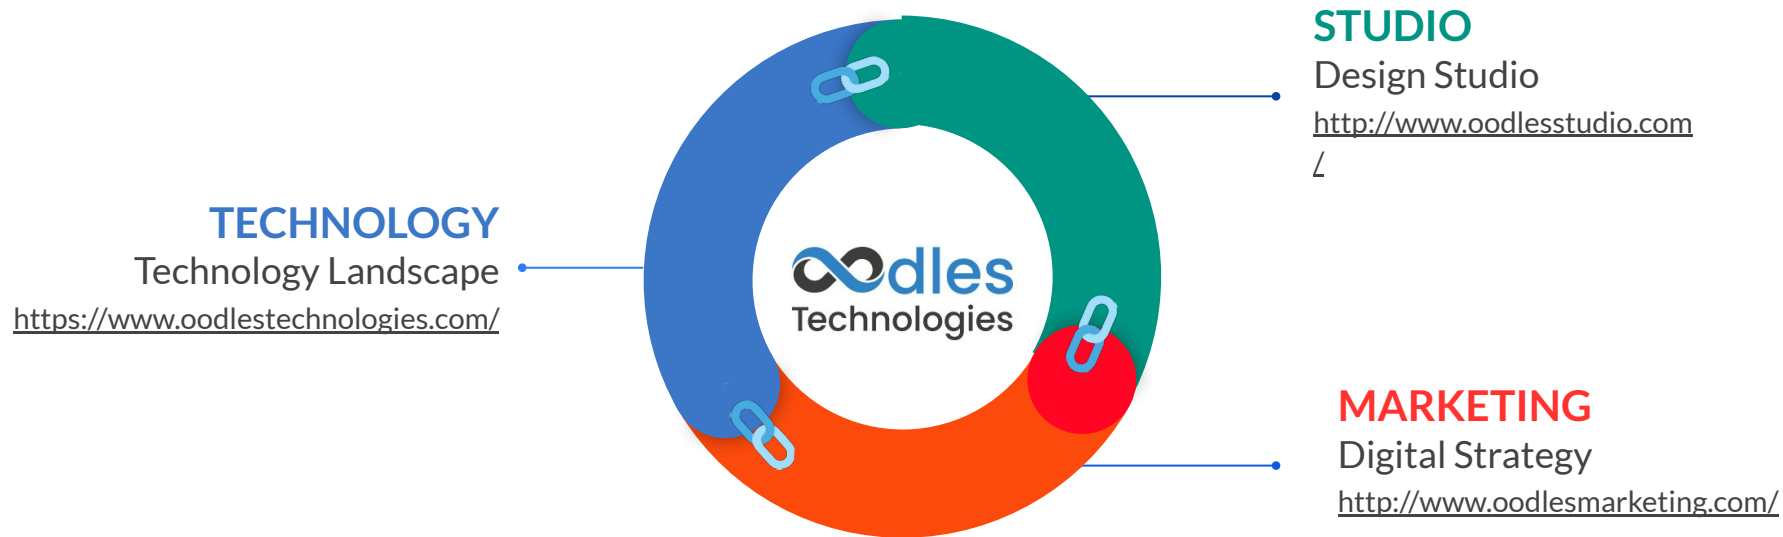

We have successfully delivered solutions with our passion for next-gen technologies to keep our clients coming back for more. All of us at Oodles are enthusiastic about exploring cross-industry avenues across diverse industries such as education, finance, real estate, legal, life sciences, and manufacturing.

Transforming Ideas Into Innovative Solutions Using Evolving Technologies.

We are on a mission to enable digital entrepreneurs and businesses to transform complex business processes. It is an endeavor we work towards every day by recognizing and nurturing raw talent.

AI Application

IoT Application

Data Protection & Privacy

AR & VR Application

Cloud Application

OUR SERVICES

SaaS

- SaaS Application Consulting and Development
- Mobile Application Development
- Multi Tenant Application Development
- Microservices Application Development
- Third Party APIs Integration
- End to End DevOps
- Security and Compliances

Mobile Application

- Native App Development
- Hybrid App Development
- AR/VR App Development
- Progressive Web App Development
- B2B | B2C | B2E Application Development
- Video Solutions | Computer Vision | IoT & Wearable
- M-commerce | Mobile Cloud Computing

Frameworks:

| Spring Boot | Django | Node js | Meteor |

| Laravel | CakePHP | Spring | React |

| AngularJS |

Frameworks:

| Unity | Adobe PhoneGap | Unreal Engine |

| React Native | Ionic |

OUR SERVICES

OTT Video

- Video-on-demand and Live Streaming
- Set-top-box Application Development
- Smart TV APP Development
- Video CMS, Chat and Conferencing
- WebRTC Application Development
- Video Surveillance Solutions
- 360 Degree Streaming Solution Development
- Interactive Video Solutions | Video & Image Analytics
- ABR Streaming for Every Device
- CDN Integration

Frameworks:

| Kaltura | Wowza | Red5 | FFMPEG | WebRTC |

Big Data Intelligence

- Big Data and NoSQL
- Business Intelligence
- AI and Data Mining
- Data Warehousing
- Database Engineering and Performance Management

Frameworks:

| Elasticsearch | Hadoop | Apache | Spark | Cloudera | Kafka |

| Tensor Flow | PyTorch | PowerBI | Apache HBASE | Pentaho |

| Hive | Cassandra | MongoDB | Neo4j | CouchDB | QlikView |

| Amazon Aurora |

11

OUR SERVICES

Blockchain Application

- Smart Contract Development
- Blockchain Application Development
- Blockchain Solutions Development
- Custom Blockchain Development for Business
- Fintech Application Development
- DApp Development Services
- Hyperledger Application Development for Enterprises
- Ethereum DApp Development
- POC Development
- Ethereum/EOS DApp Development
- Cloud Based Blockchain Solutions

Frameworks:

Hyperledger	Multichain	Ethereum	BigchainDB	IOTA
Credits	Stellar	NEM	Openchain	Ripple	Corda

ERP Solutions

- ERP Integration Services
- E-commerce and M-commerce
- Mobile ERP | Business Intelligence
- ERP-Sales Management and Solution
- AI and ERP
- ERP Edge Services and IoT
- Blockchain ERP Integration
- Cloud Services ERP Development and Integration
- Business Process Management (BPM) Solution

Frameworks:

Oddo	Ofbiz	Salesforce	QuickBooks	d3js	Zoho
Hubspot	Opentaps	PowerBI	QlikView	Magento	
Broadleaf	Prestashop	Hubspot	Opentaps	PowerBI	
QlikView	Magento	Broadleaf	Prestashop		

OUR SERVICES

AI Application

- Recommendation Engine
- Chatbot
- Computer Vision
- Natural Language Processing Applications
- Predictive Analysis
- Resource Planning Solutions
- Forensic and Legal
- AR/VR | Intelligent Blockchain | Healthcare
- E-commerce | Education
- Tour and Travels | Media and Entertainment

Frameworks:

Mahout | DatumBox | OpenCV | TensorFlow | DL4j

PyTorch | PredictionIO | Dialogflow | Amzon Alexa

Keras

IoT Application

- IoT Consulting and Development Services
- Raspberry Pi Application Development
- IoT Data Management
- Intelligent IoT Solutions
- IoT Integrations
- Quick Prototyping
- IoT Cloud Solutions
- Intelligent Digital Mesh

Frameworks:

Python | NodeJS | Hadoop | Spring | Kafka

Raspberry Pi | Apache Spark | OpenHAB | IOTA

Elasticsearch

OUR SERVICES

AR VR Application

- Augmented Reality Application Development
- Virtual Reality Application Development
- Mixed Reality Application Development
- Business and Enterprise Solutions
- Gaming Apps
- Marketing and Promotional Tools
- Visualization Solutions
- Social Experiences
- Blockchain Applications

Frameworks:

Unreal Engine | Unity | WikiTube | ARToolkit

Cloud Application

- Cloud Consulting and Application Development
- Cloud Architecture Services
- Cloud Integration & Migration Services
- Web and Mobile API
- Serverless Architecture Development Services
- Blockchain | IoT
- Cloud-based AR and VR Services
- Cloud Consulting Services

Frameworks:

AWS | Azure | Google Cloud | Bluemix

14

OUR SERVICES

DevOps

- Infrastructure Assessment and Management
- Environment Optimization and Management
- Code Inspection and Continuous Integration
- Continuous Delivery and Orchestration
- Continuous Deployment
- DevOps Cloud Services
- Cloud Consulting Services
- Public Cloud Management
- Private Cloud Management

Frameworks:

Jenkins | Percona | Zabbix | Ailgun Monit | Ansible

Cloudstack | CloudFlare | PENVPN | Ubuntu | Redhat

Wearable Application

- Apple Watch App Development
- Android Wear App Development
- IoT-based Wearable App Development
- AR and VR Wearables App Development
- Wearable App for Health and Fitness
- Utility App for Wearables

Frameworks:

Wikitude | Eclipse | Android Studio | Healthkit | Swift

Siri Kit | CocoaPods | Objective C | Android SDK

OUR SERVICES

Quality Assurance

- Accessibility Testing | Manual Testing | Test Automation
- Security Testing | Performance Testing | API Testing
- Compatibility Testing | Functional Testing
- Usability Testing | Localization Testing | Web Testing
- Mobile Apps Testing | Cloud Solution Testing
- Blockchain Application Testing
- ERP Software Testing
- AI Application Testing | IoT Application Testing

Frameworks:

Apache JMeter | Selenium | SoapUI | PostMan

Swagger | Sonarqube | Jira Software

Data Protection and Privacy

- Privacy Impact Assessment (PIA)
- Privacy Strategy and Implementation
- Data Breach Notification and Incident Management
- Third Party and Vendor Management
- Data Security Audit
- Data Security Architecture
- Data Security Implementation
- GDPR Consulting Services
- Data Protection and Privacy on Cloud

Frameworks:

AWS Cloud Security | Google Cloud Security

Microsoft Azure | IBM Cloud Security Services
