COMMUNICATION

Get your project executed by our in-house product manager
or become an active part of the creative process

communication

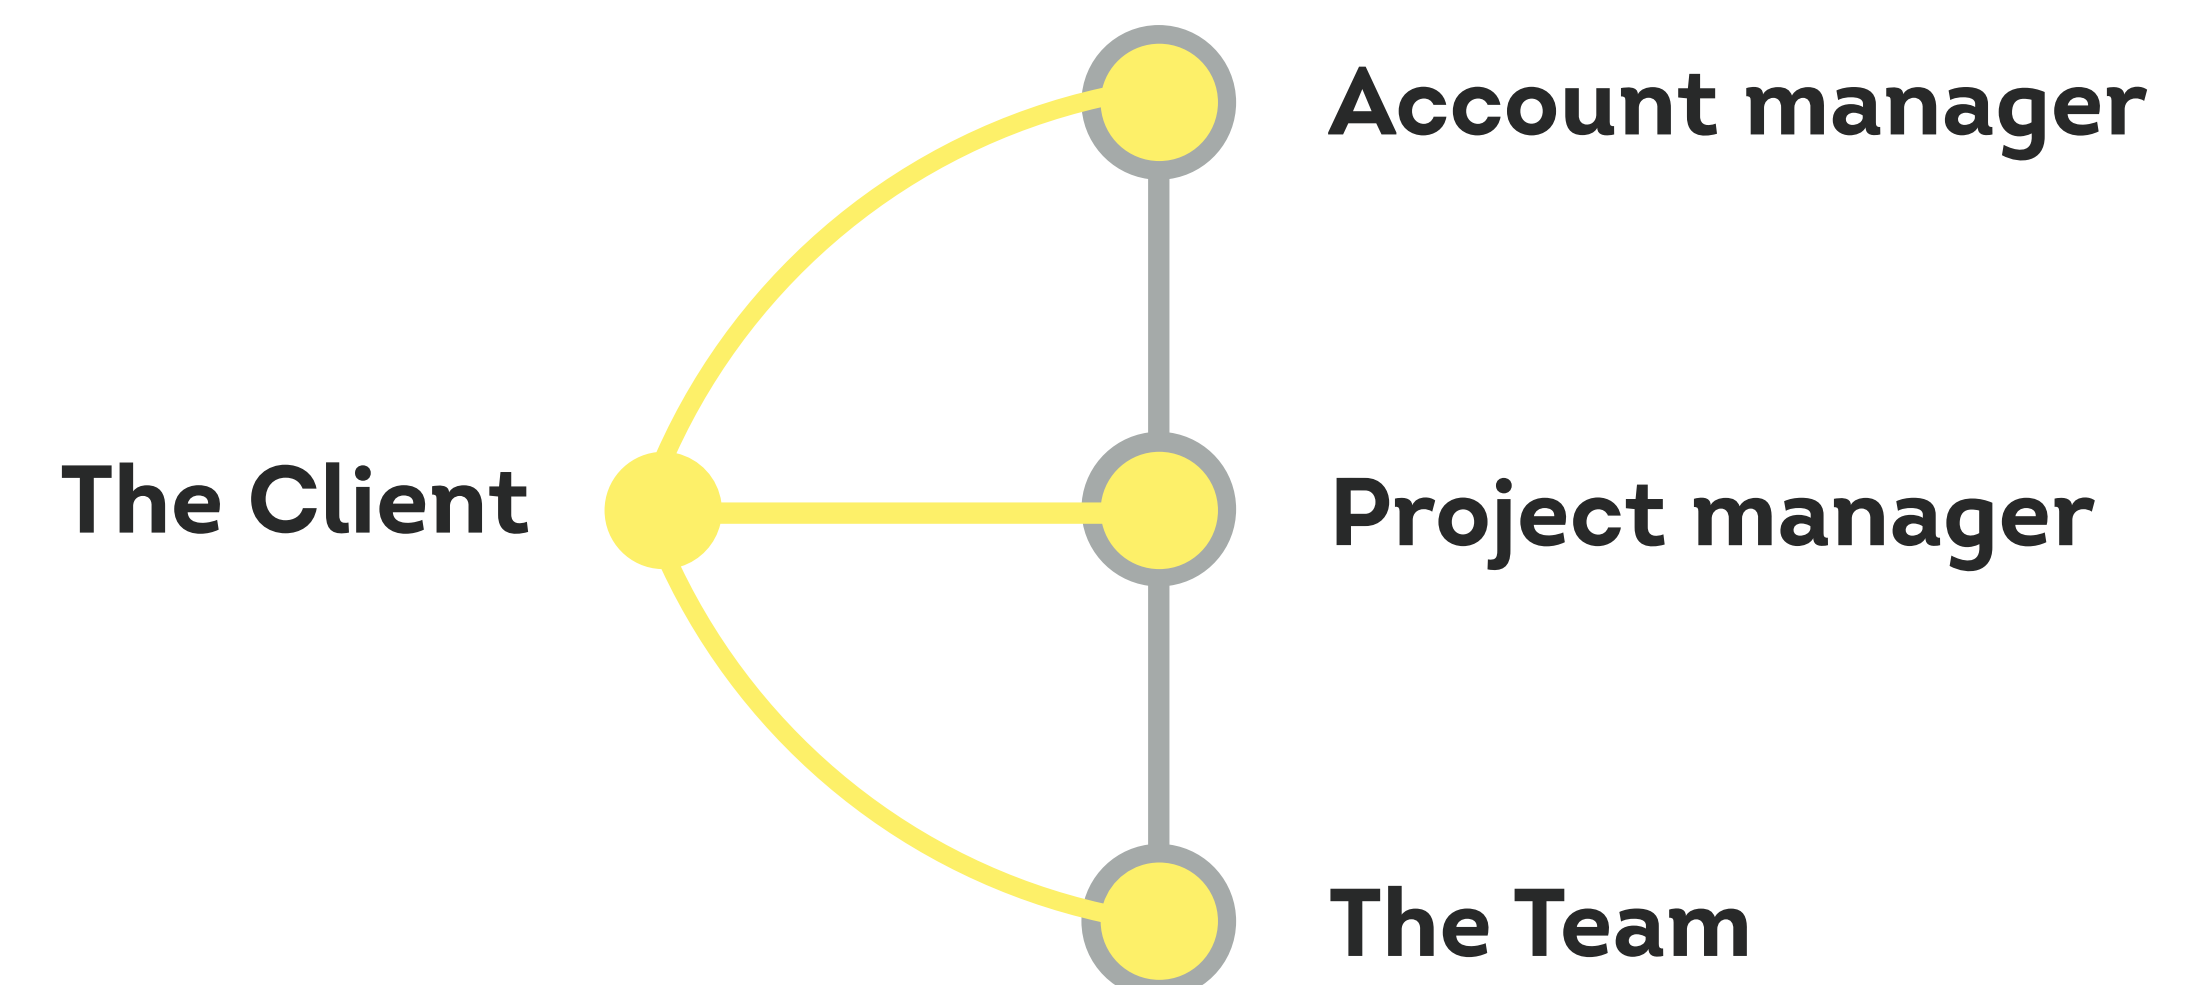

control

If you have a clear vision of your project and need a team to develop a solution in time and on budget, our management team will handle the communication, provide business analysis and development reports, ensuring that our development team sticks to the plan.

If you are interested in adding as you go, generating new ideas and getting constant feedback on development possibilities, you can communicate directly with our team, while the managers will help you and guide through the project.

TESTIMONIALS

Robert Keus

Brothers Media / robert@brothersmedia.nl

"The expertise of the Kultprosvet coders is from a high standard. We are very satisfied with the collaboration."

Kateryna Rosinets

Prof Digital / rosinets@profdigital.com.ua

"It is always pleasant to work with Kultprosvet team, we are satisfied with the quality of the services they provide, we always get a prompt response to all of the questions and an excellent quality product. That is why we always recommend them to our clients and our partners."

Narinder Kaur

EDGE / narinder.kaur@edgecustom.com.au

"Quality: Kultprosvet's work in terms of delivering HTML/CSS that mirrors our PSD designs is near perfect. Their speed and accuracy at resolving any issues that naturally occur in build projects is great.

Benefit for us: By far the biggest benefit for Edge to working with Kultprosvet is cost effectiveness.

Safety: To date the work we've done with Kultprosvet has been handled to our requirements so I don't feel any issues of 'safety' exist. I.e. I'm very comfortable and confident working with Kultprsovet."
