- Automatic reminders for bills with their due dates and number of days to pay
- One touch access to manage and view Upcoming, Overdue and Paid bills
- Pay your bills online without leaving app for most of service providers
- Auto bill detection by analyzing bill notification SMS sent by billers/service providers to your phone

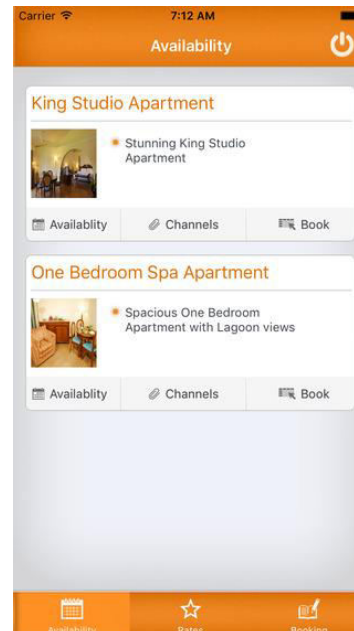

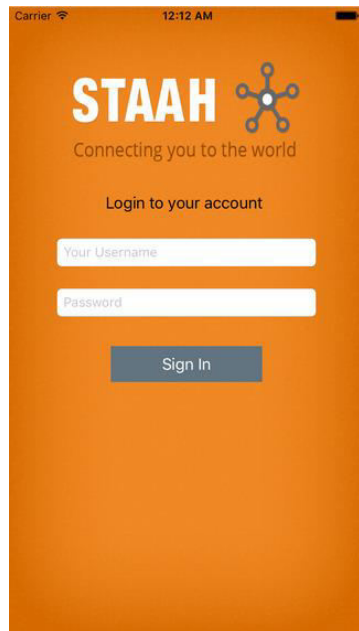

STAAH – iOS & Android Applications

<https://itunes.apple.com/us/app/staah/id1045165460?ls=1&mt=8>

<https://play.google.com/store/apps/details?id=com.staah.channelmanager&hl=en>

STAAH is a leading Hotel Channel Manager and Booking Engine provider committed to increasing online presence and performance for our clients. STAAH Channel Manager offers real-time connections to over 100 OTAs globally. They also work with a range/ selection of Property Management Systems allowing real-time inventory, rates and restriction updates from Customers PMS and bookings to seamlessly drop into their reservations system.

The STAAH App will allow accommodation providers to manage inventory and rates while on the move. We have added an extra bonus, there is also a simple booking function. This will allow you to accept and confirm a booking in real time. The booking will also drop into your property management system if integrated.

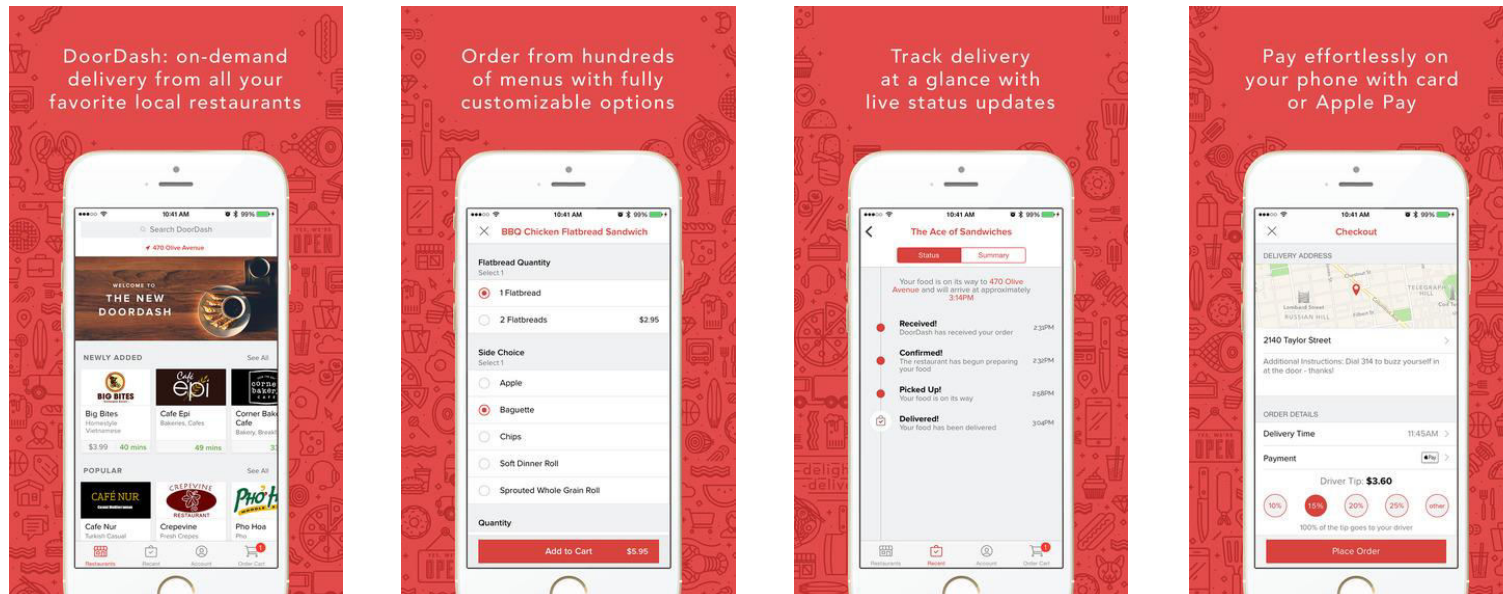

DoorDash – iOS Application

<https://itunes.apple.com/in/app/doordash-food-delivery/id719972451?mt=8>

DoorDash is an on-demand delivery service that connects customers with local businesses. Through the DoorDash marketplace, people can purchase goods from local merchants and have them delivered in less than 45 minutes - thanks to our revolutionary logistics technology.

Doordash Food Delivery application delivers from hundreds of local restaurants in 45 minutes or less. This app giving various premium features like:
Order on-demand or schedule a time that works for him.

- Pay directly from app itself using credit card and also supporting ApplyPay.
- Track Order, up to the minute updates so customer can know exactly where food is.

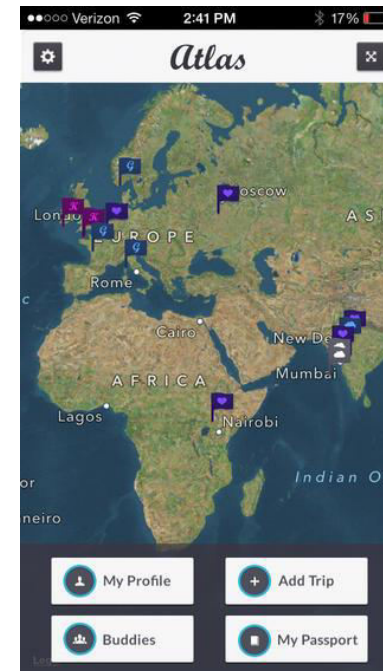

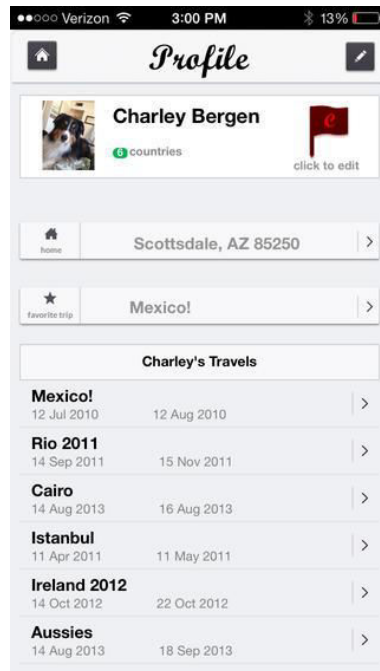

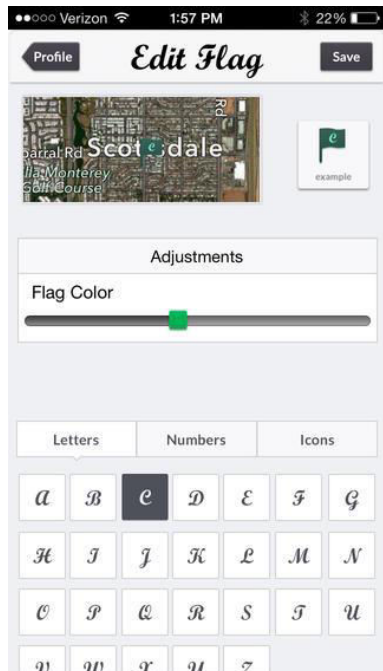

Atlas Social Travel – Android Application

<https://itunes.apple.com/in/app/atlas-social-travel-free/id740817012?mt=8>

Atlas: Social Travel is an interactive app that lets user track their travels and share experiences as they travel the globe. With an Atlas account, user will design a flag to post on their world map wherever they go. Snap away when visiting new places and then link photos to that destination using flag.

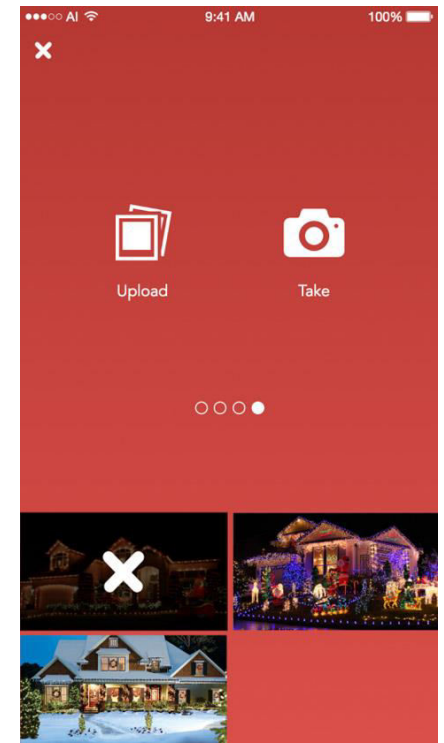

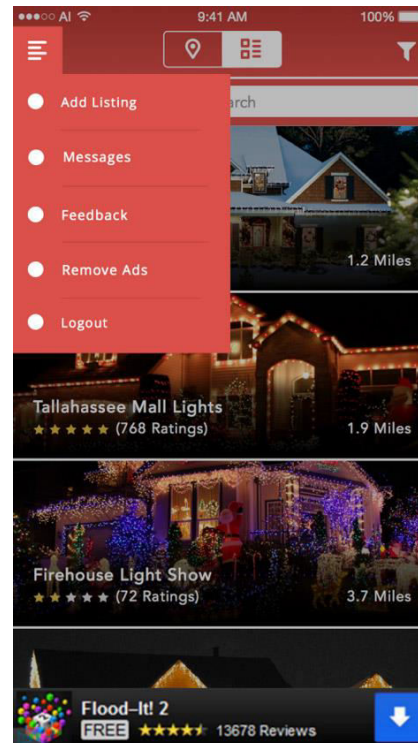

Others on buddy list will then be able to click on flags to view the pictures and comments from travels. Check out the flags of travel buddies to follow their adventures too! Atlas is a great way to safely store users travel photos while keeping them easily accessible from any iOS device. Atlas also includes an achievement system in the form of a passport where user will earn stamps for traveling to different places in the world.

Lights! – Android Application

<https://play.google.com/store/apps/details?id=com.lightsapp>
