Singles by Sarban

Discovering music in the Afghan community is no longer a hassle with **Musiqi**. Just launch the app and discover new, old, and trending music right at the tip of your fingers. **Musiqi** features one of the largest libraries of songs ever uploaded on the internet.

Key features and functionality:

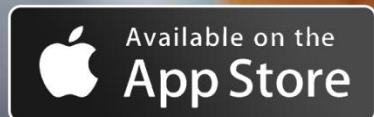

Artist Contribution, Dedicated profile, Download and Sharing music has never been easier

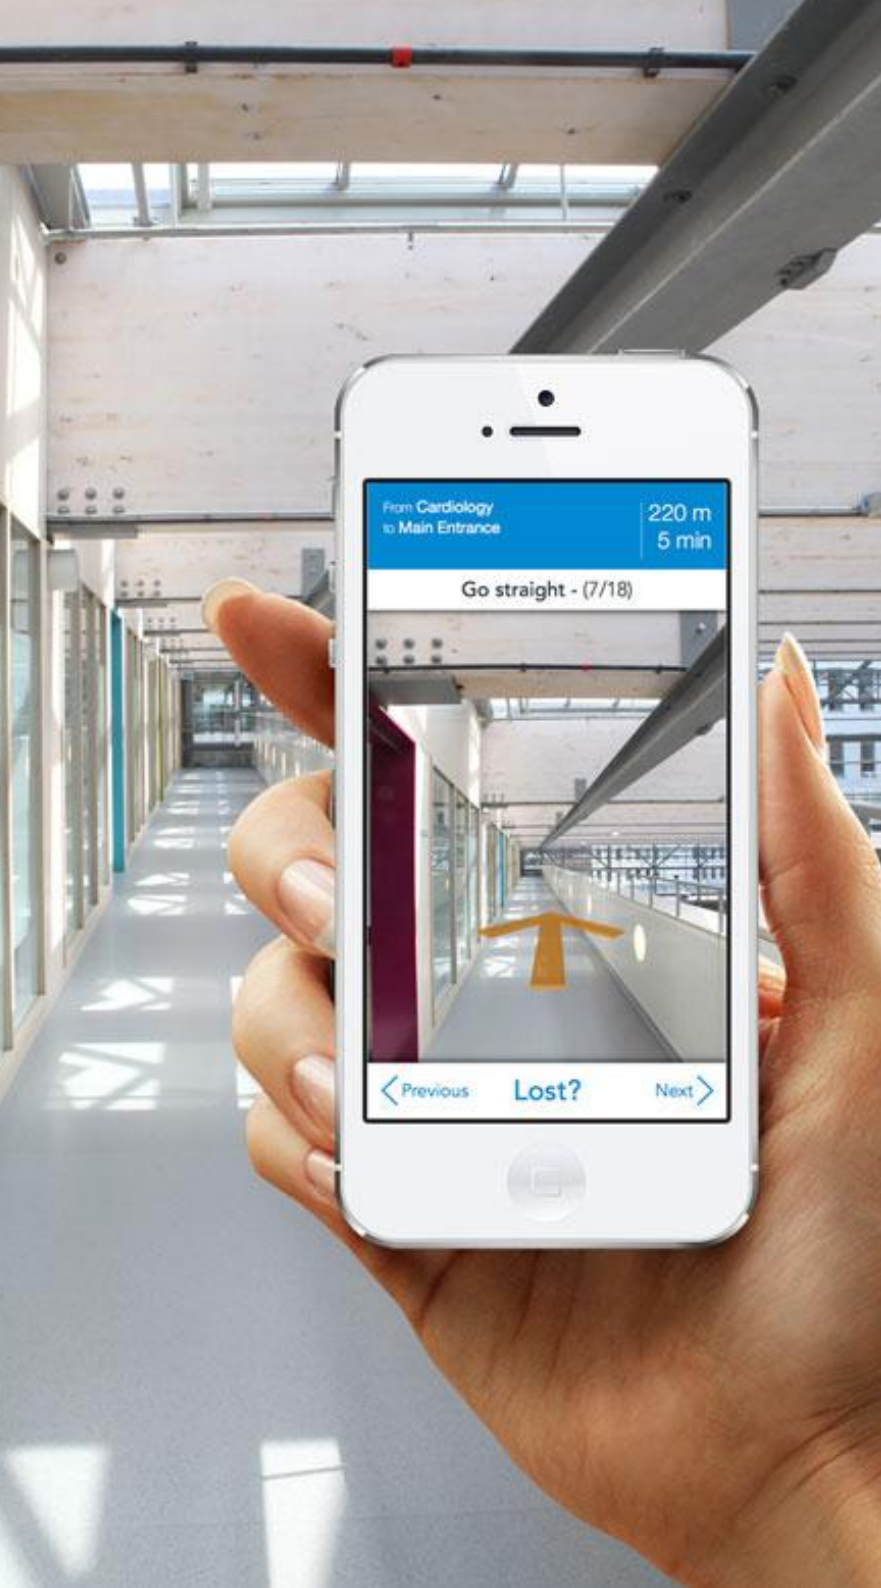

- Three types of user roles with three levels of access:
 - Artists (have their own cabinet for uploading different content and creating events),
 - Users (can review, listen and download music/video/podcasts; review information about the each artist and event);
 - Admin (has access to the whole information, can manage everything);
- Monetization and in-app purchases integration;
- Advertising; 'like' and sharing functions;
- Featured, newest, trending compositions/artists/videos and new albums;
- Create own playlists; music and video streaming.

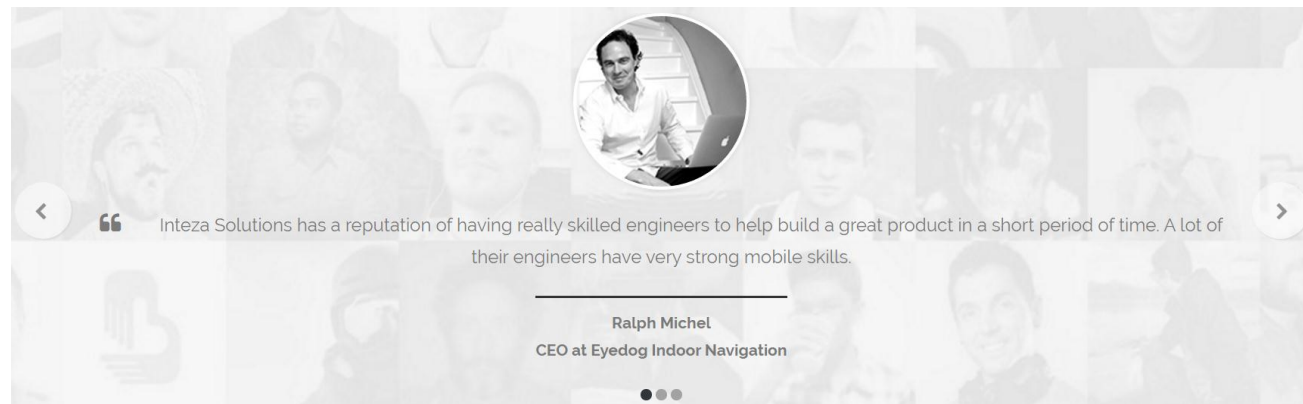

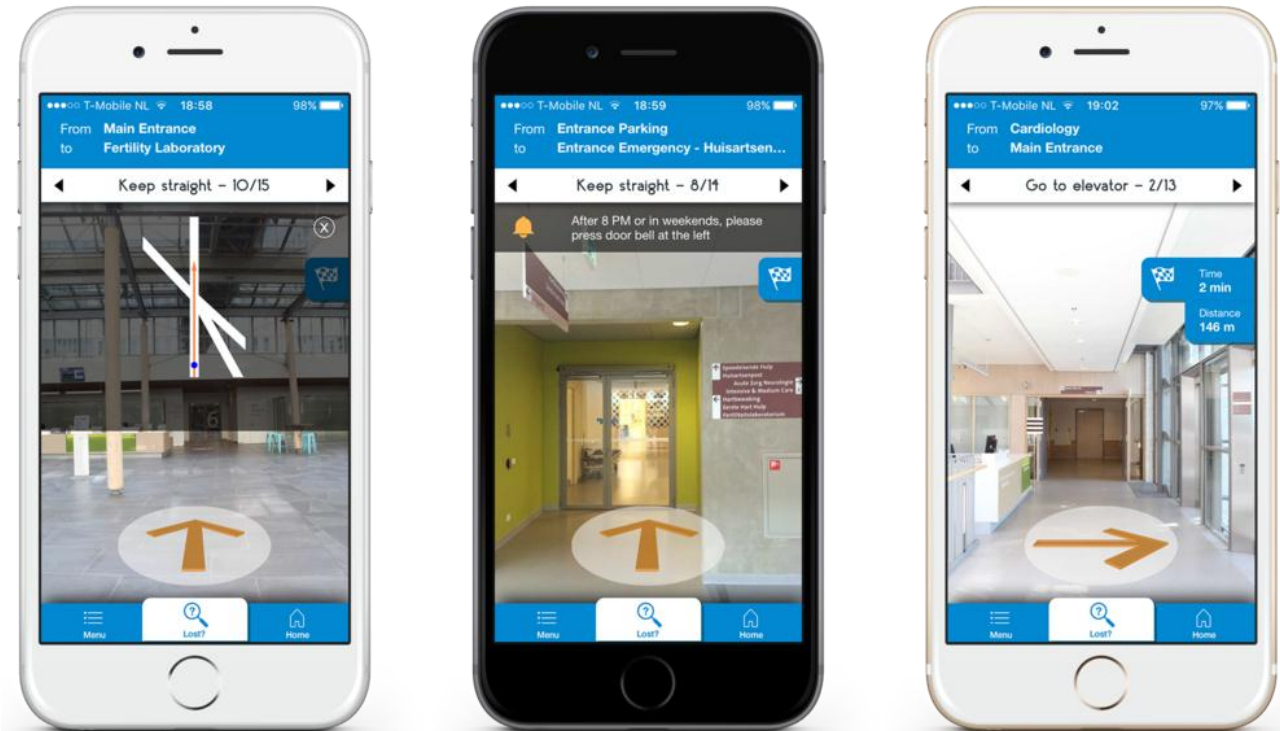

Digital Indoor Wayfinding and Navigation

Eyedog Indoor Navigation System for large and complex buildings. Feature placements are determined by the app stores and help users to discover new and popular apps. Knowing when and where an app is being Featured can explain a sudden boost in popularity and downloads. App Annie tracks all the different Feature placements for any app, day, country, category and device.
