The Overview

This document is envisioned to give an insight to the clients about the work dynamics of The NineHertz. With a work experience of more than 10 years and more than 1000 projects delivered to clients across the globe, the company has been able to acquire a reputable position in the world of app development successfully.

What has remained constant over these years in the company is the way clients are dealt with. More than just delivering eye-catching designs, and robust and scalable features, the team of the company believes in following a unique approach that sets them apart from the others.

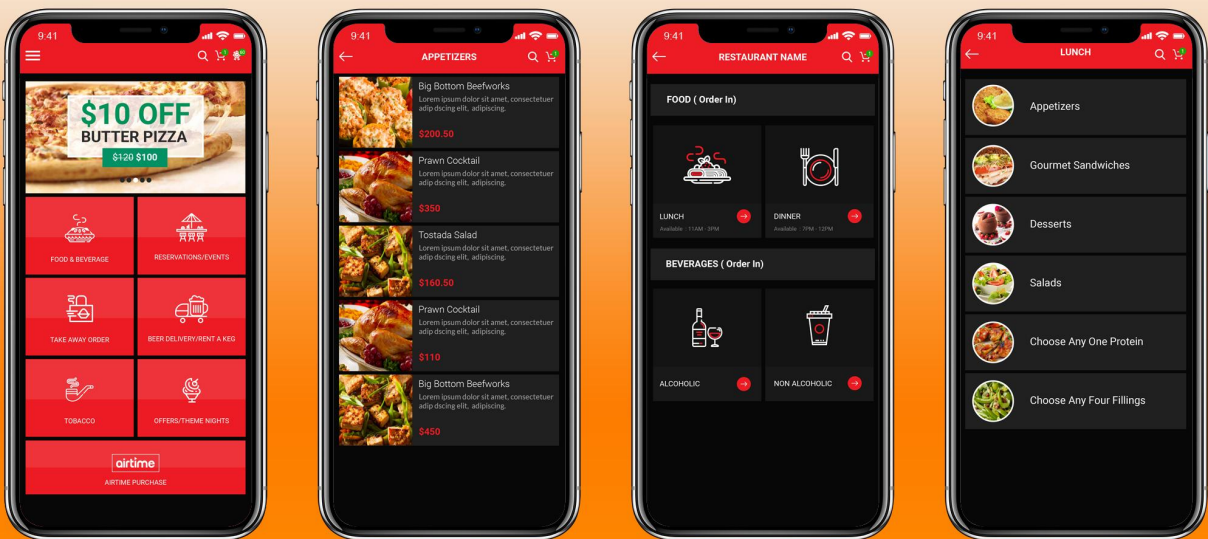

They accommodate every suggestion that the client brings forth and customize the designs according to the clients' choice and requirements. They emphasize on every inch-detail during the process of development & incline their attention towards keeping the environment customer-oriented. This flexibility in working always proves beneficial for the company in keeping the clients retained.

All the below examples are provided to give a notion about the actual work done by the company so that before anything, the clients can get to know about the possibilities of working with The NineHertz!

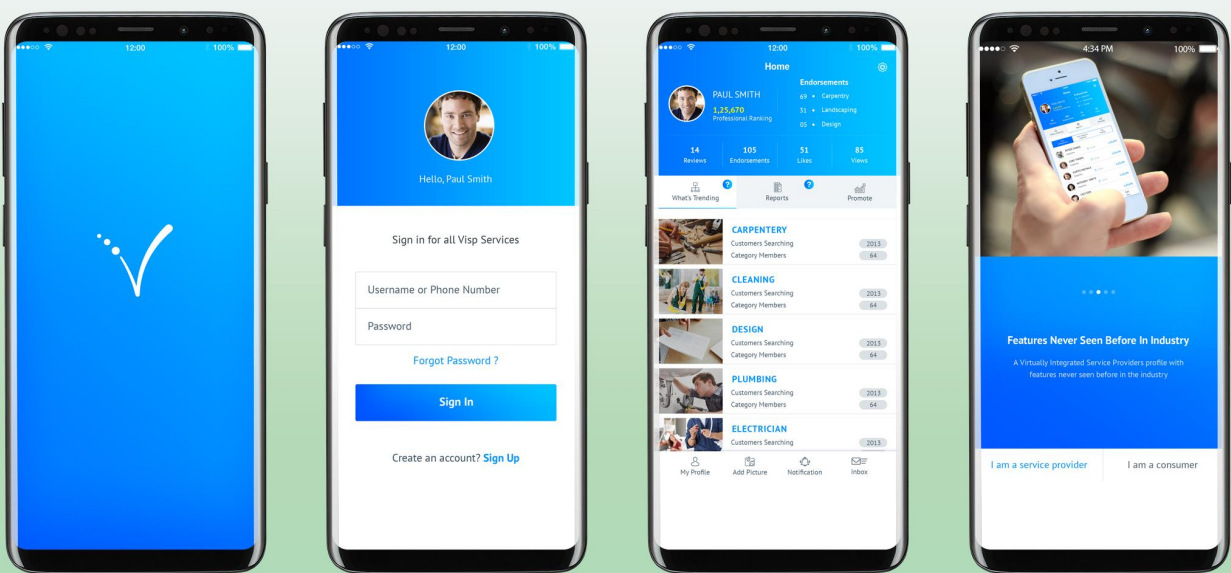

Brew Bistro

In an evolving generation of technology-savvy people who are constantly on the move, products and services are designed to complement their lifestyle and in most cases replace the conventional ways of doing things with mobile applications. Most services with mobile apps option will range from third party money transfers, airtime time recharge, utility bill payments etc. to World News, Music, games, social media etc. and very recently, the Brew Bistro.

Visp

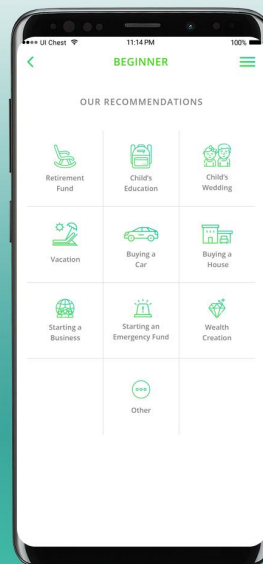

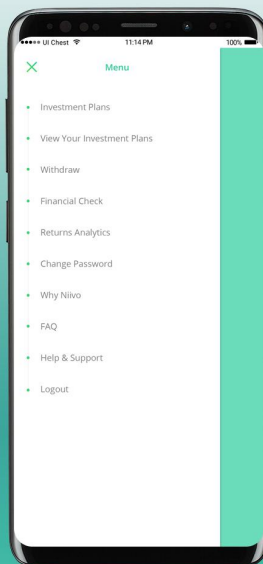

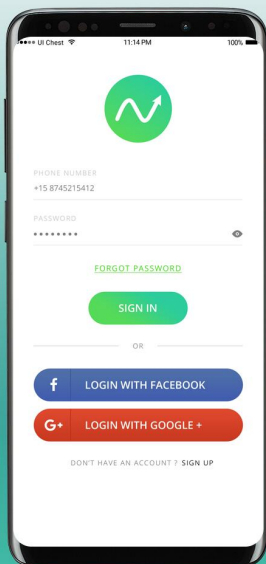

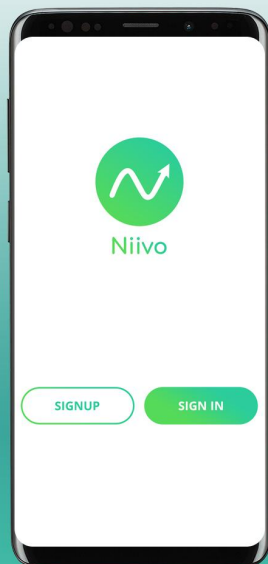

Be part of a new trend and allow yourself or your business to gain 100% of your earning capacity by creating a customized business profile visible to millions of customers, which can put you on the road to your own success. This professionally designed, unique and user friendly App offers several features never before seen in the online App industry and literally puts you on the Map where ever you are in the world.

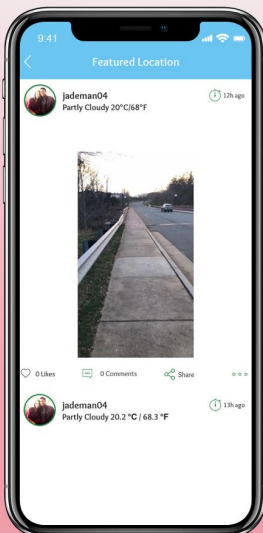

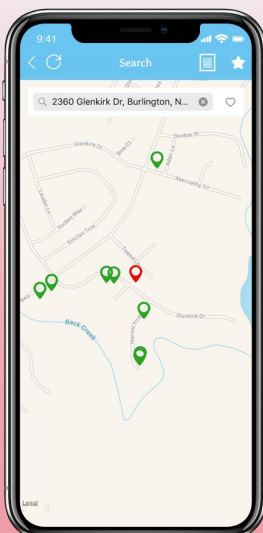

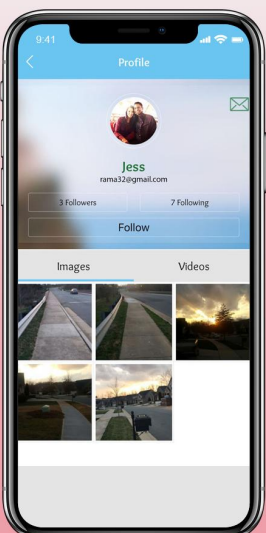

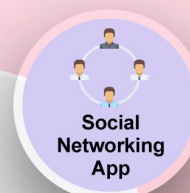

Niivo

Niivo is an app that aims to be your one stop shop for mutual fund investments. Invest according to your investment experience. For beginners, invest using a goal and let Niivo decide which funds you'd like to invest in.

There App

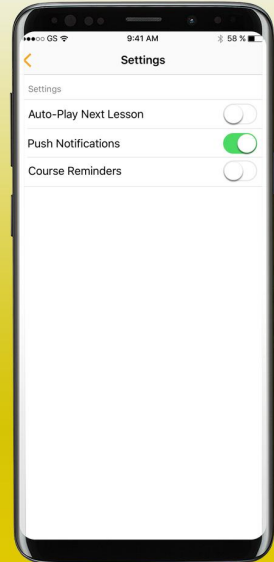

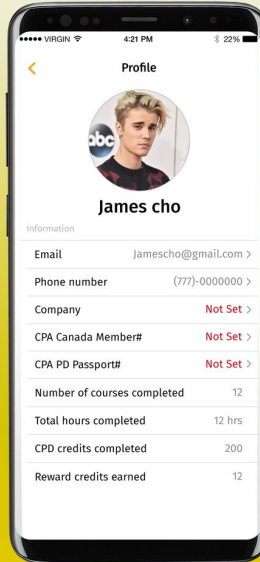

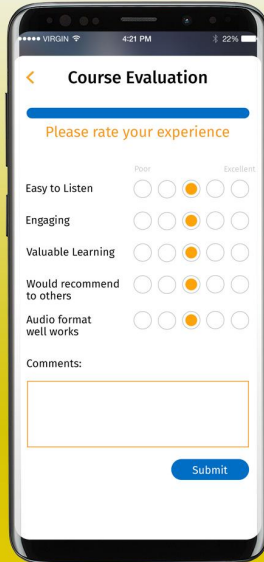

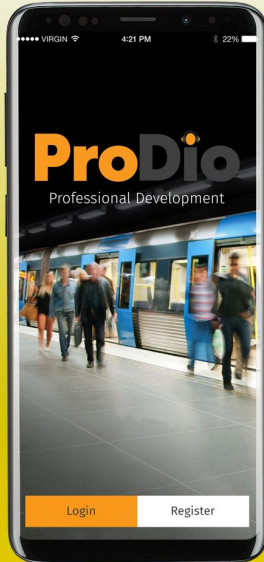

The goal of this project is to develop an application ("There") that allows individuals to post something (Video/picture) from their location. The basis of this app is to show updates at different locations. So a user will be able to type a location and then be able to see various updates from that location. It will include current weather update at locations. It will pull location from GPS and weather from the person's phone.

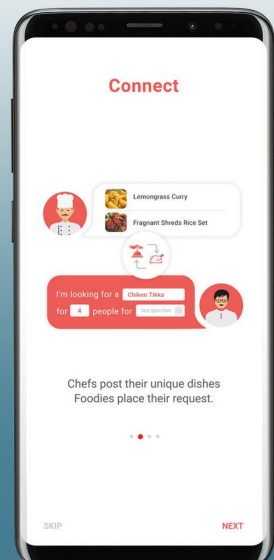

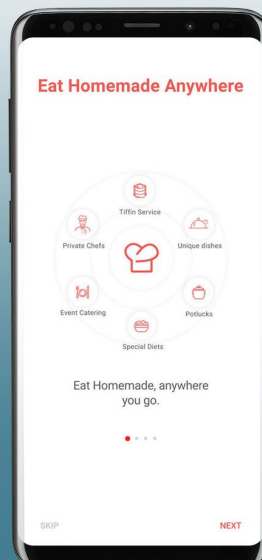

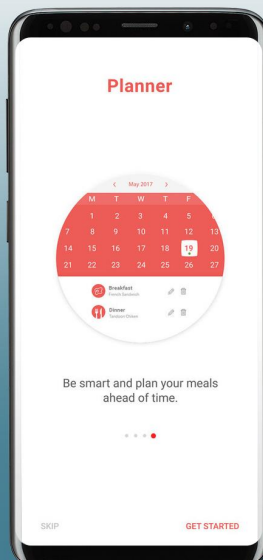

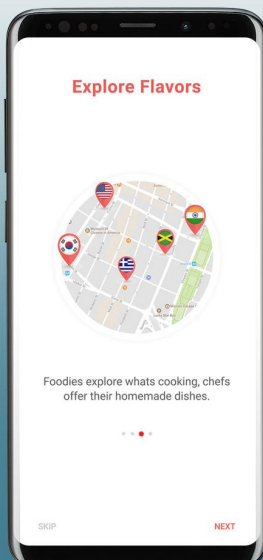

PRODIO

ProDio audio learning allows you to complete your Professional Development PD courses on your phone or tablet during otherwise unproductive time – travelling, commuting, exercising or during outdoor activities. Formal learning meets engaging podcast. No screen or lecture hall needed, just you and your phone. And with our courses delivered in audio-only, you don't need to be staring at your screen – you can leave your phone in your pocket or purse and simply listen.

CHACHI'S FOOD

Find homemade food near you or offer your own special dishes. Exchange contacts with foodies and chefs in your neighborhood and discover a unique social experience. Let your friends know what you are cooking or craving, and enjoy homemade food together.

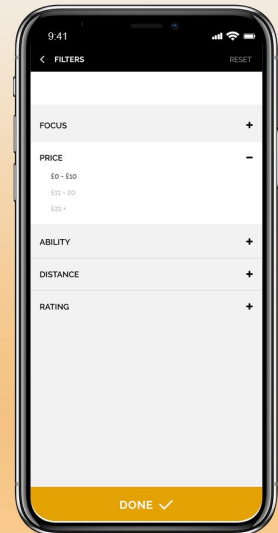

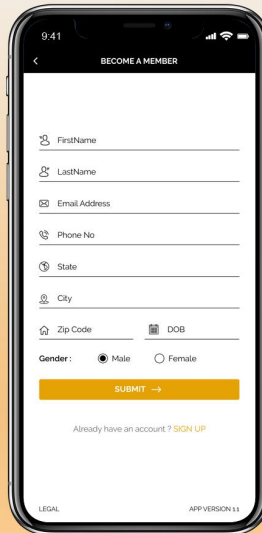

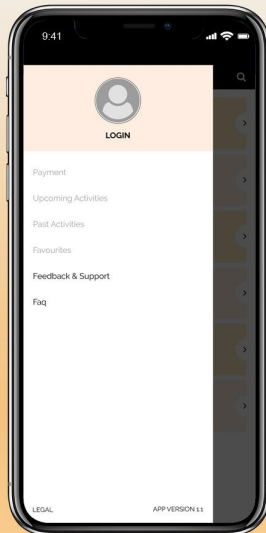

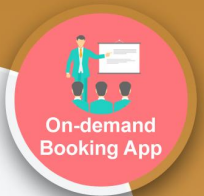

EMPTYCHAIR

EmptyChair is London's best booking app for classes – we're here to help you discover and book all kinds of fun activities and workshops. Why not give us a try? You never know, you might just discover your hidden passion.

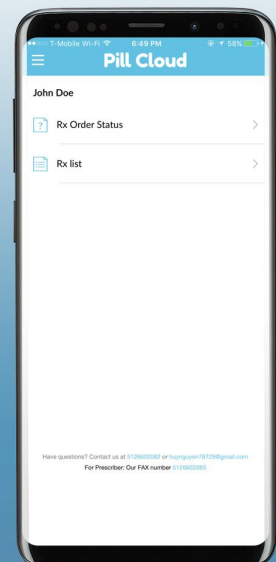

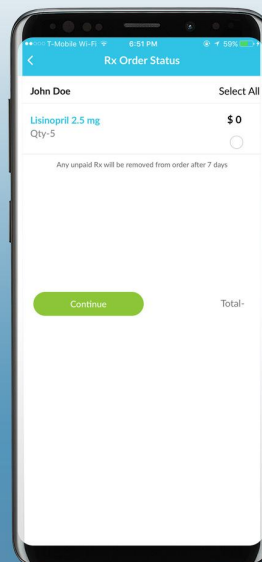

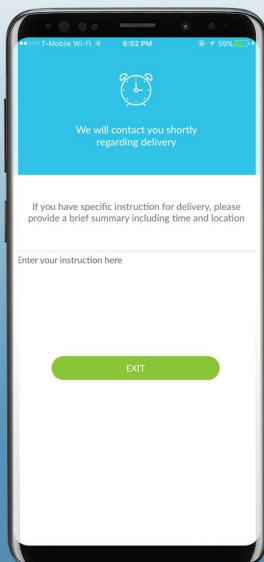

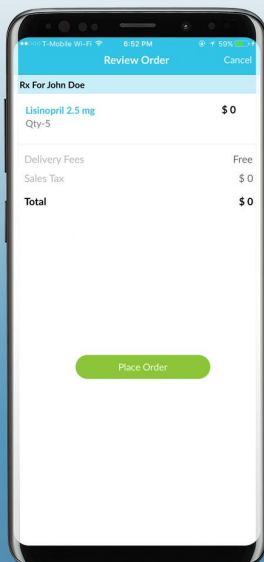

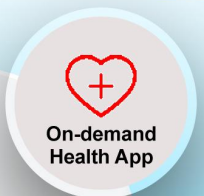

EmptyChair Features:

- A unique timetable to help you find the perfect class.
- Three simple clicks to book.
- Smart and integrated payments system.

PILL CLOUD

We are a team of pharmacists dedicating to making patients' lives easier with prescription delivery. We are founded in Austin, Tx. Our service is only available in the Austin area at the moment. We are contracted with pharmacies around Austin to ensure you get a lower copay. Patients no longer have to drive 45 min and wait in that pharmacy line. We believe you guys deserve better customer service than what you are getting at retail pharmacy.

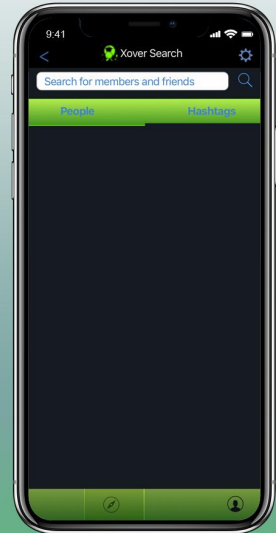

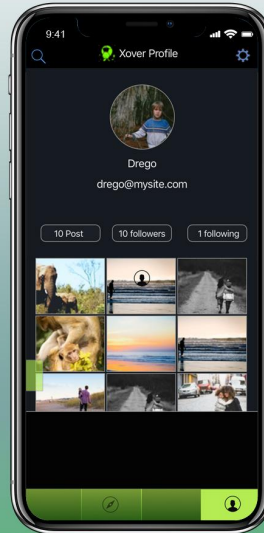

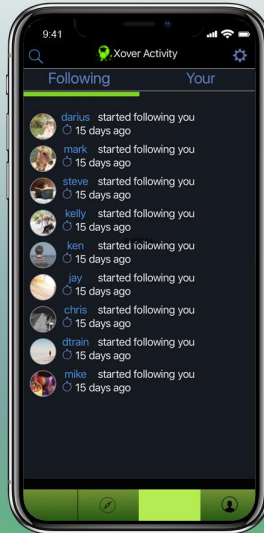

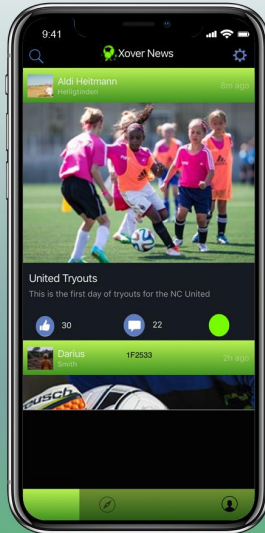

On-demand
Sports App
