Introduction

NMG helps clients worldwide build web & mobile products that tell their stories and connect emotionally with their customers. Its been our calling since 2008 to redefine the way web connects with people, and to ignite moments of meaning.

We expect everything we do to be ingenious, insightful and polished to perfection. No matter what medium or platform or technology we use, we create work that inspires
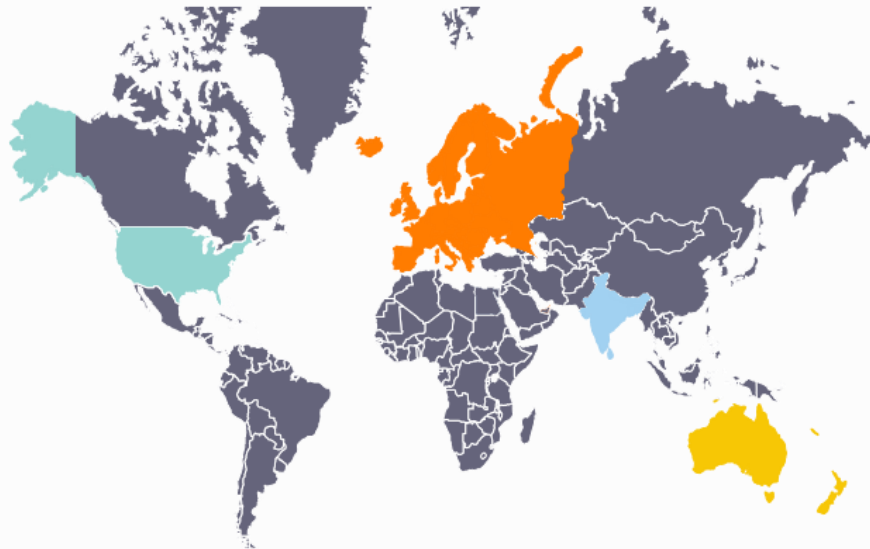

Mission

We are currently not planning on conquering the world.
– *Sergey Brin*

We are however, planning on conquering this region!

- *NMG*

NMG around the world

Our Process

A look at our lifecycle flow

Define Requirements

You must begin defining user needs, what goals you plan to accomplish, your business model and how you plan on positioning yourself within the competition. Based on this we will prepare a suitable solution for your business.

Plan & Communicate

Open discussion and collaboration between the team and the client. Full project plan with delivery dates are shared from the very start

Design

Understand your vision and create a theme keeping it's applicability across all agreed-to mediums.

Build

The development team build a beta of the product and our goal now is to polish to perfection before seeing it go out the door.

Adaptive Professionals

Online Staffing Solution for Accountants & Businesses

[Click here to view](#)

Tell me more

Our client has been an accountant for 30 years himself when he approached us to develop a system of automation of their staffing solutions. His main goal was to build a one of a kind portal listing accountants from Unites States where companies could hire them on contractual basis. Platform automates the system of Payroll processing, background checks, candidate registration, live and recorded interviews, client registrations, verifications etc.

**Happy & Satisfied client.
We are now discussing the expansion of the project along with monthly maintenance**
