

BCloud project

All of us, almost every day, are engaged in trade relations. To make these relations more reliable and mutually beneficial, our customer decided to develop a special sales platform by means of our services. We also offered to introduce the analytical system into this platform to give buyers and shop owners the possibility to analyze their economic activity as well as calculate the interest rate.

How it Works
Partners | Merchants | Rewards | Card

Not Your Average Rewards Program

MORE CASH BACK!
 \$50 to \$500 in more given to you by participating merchants.

FREE STUFF!
 Upgrade to first class, movie tickets, and VIP business.

PRIVILEGED ACCESS!
 Special events, private parties, and VIP membership.

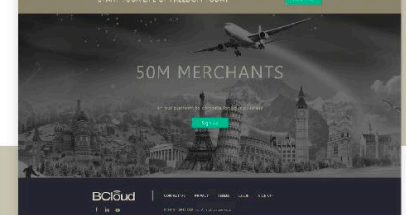

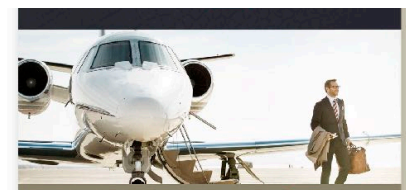

VIP AUTOMATED!

Whether you spend a little or spend a lot, we make a VIP out of you.

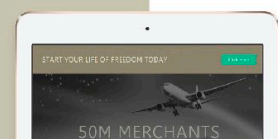

Because Cloud's marketplace encourages merchants to compete and reward you for your good business deals.

And if you do have a lot, please to be a member of our elite!

The New Police

An application for the new police. The main idea is a quick involvement of the patrol without calls, as well as convenient interaction with the new police.

Our Police

An application for the new police. The main idea is a quick

involvement of the patrol without calls, as well as convenient interaction with the new police.

Getting Started

After installing the application, registration is not required. The station will give you an access to the emergency call.

Get started

Application and Call

The application can be drawn up by filling out the form, where you indicate exactly the address to which you need to call a patrol, the reason for the call, a photo of a victim.

Emergency call

If you are registered, you will have the emergency call button available both from the form and from the home screen of the phone. The call will be regarded as the emergency unless it will be later rejected by you.

The emergency call button available from the home screen.

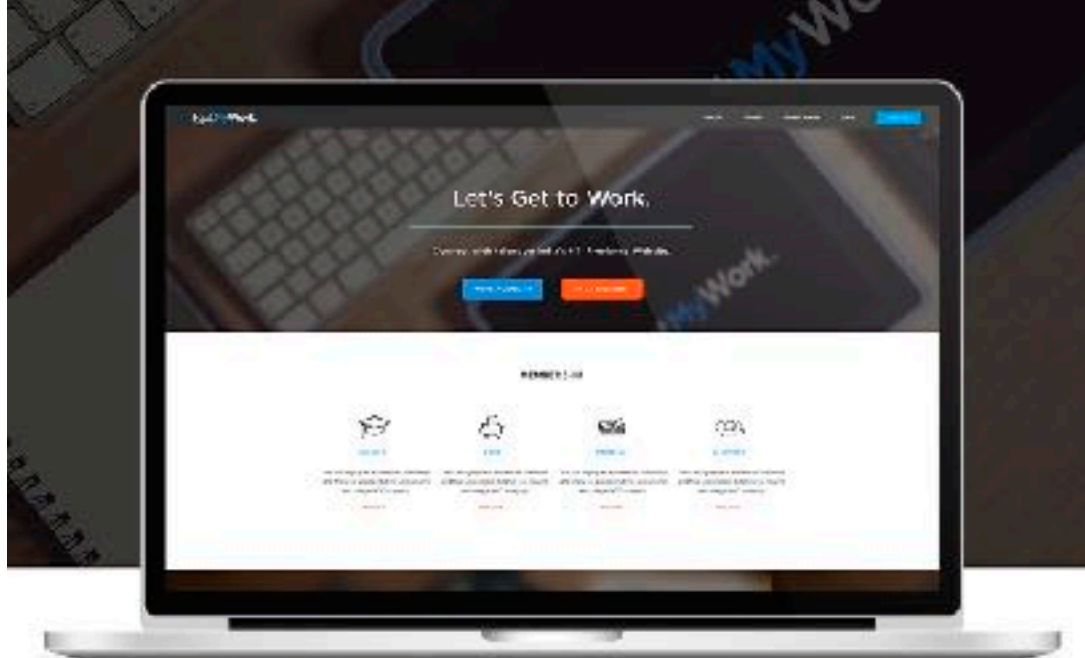

A 10-second time to cancel the emergency call.

The passed message is at your current location.

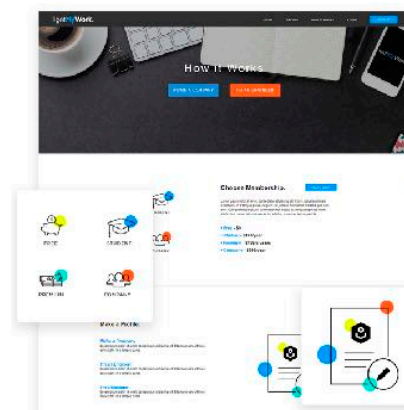

I Got My Work

Everyone tends to find a job that brings stable money and great pleasure. In these days, many self-employed people are thoroughly looking for the

remote work. However, a variety of the unverified agencies make these searches long and unsuccessful. We have decided to solve this problem by developing a large freelance portal where both freelancers and customers would be able to place job advertisements.
