MESSAGE FROM MD AND FOUNDER, FOR THE CLIENTS

Dear clients,

I am humbled to share that Xtream Solution was built on four pillars – ideation, information, innovation and implementation. Through our bouquet of IT and IT – allied services, we have always lived by our founding principles. Each team member at Xtream Solution is not only well-experienced in established and promising technologies, but they are also encouraged to learn the new developments in their respective fields and come up with innovative solutions that work seamlessly and look beautifully.

We understand your requirements, and we value your desire of expecting something special from us. To achieve this, we have toiled on the way people work, on the traditional patterns, and the processes, to implement your expectations in a positive way. Along with these, one thing which remains is our passion and commitment for delivering you finest quality solutions at most affordable prices. And yes, we promise you to keep it forever for the years and years to come.

We are very young in this industry, and we are sanctified with some young and energetic people who love dreaming high and bringing them in real world. While working for our valued clients, we bring-on-the-table the most seemingly impossible ideas, and we are never afraid of failure, because it's the part of our learning phases. Honestly, while working for you, we hate delivering those so called "traditional solutions" that every other company out there does. Instead, we strive to put some extra efforts, and bring out something extra from whatever we do. If it requires us to walk a mile more than others, we are more than happy to do

so.

WE.BUILD { WHAT.USERS : NEED }

NOT WHAT YOU THINK YOUR USERS NEED

MESSAGE FROM CEO, FOR THE CLIENTS

Dear clients,

Where every other company claims to be a 'web development specialists', we started Xtream Solution to be a synonym for web development. We live, and we breathe the web, and we are passionate to see your business on the zenith – while we are helping you accomplish your goals. Our constant endeavor is to tender you best quality solutions, enduring intact with your expectations and delivering promises – solitary!

From its very beginning, Xtream Solution has stood factual to its words of impeccable services, unimpeachable design and simplified codes.

Our team of strategists, design artists, illustrators, developers and writers work side by side to deliver one-of-a-kind products, customized to specific needs. Through proprietary client intake, workflow and project management processes, Xtream Solution consistently yields top quality results, client contentment and lasting relationships.

It's not a long time we started our journey, and we consider ourselves in a learning phase. However, we learn more so that we can deliver you more, and we learn more to advance our abilities so that we can dish up you better. While working for you all the way through and planning innovative strategies all through the night, our constant aspire is to improve our services in a constructive way, to meet your expectations and to go a step further. It's not just about providing the elucidation with the most cutting-edge technologies, it's about dreaming high, making great pledge, and keeping them, every single time. We are contented, that we have coped to achieve this.

Every new client, every new project and every expectation of yours allow us to learn, grow, and improve. When we work with you, we see it as a prospect to show ourselves, and ascertain a standard which you have in your business. When we work with you, we want you to keep your expectations high. It motivates us, and your constant support motivates us to exceed your expectations. We believe in making relations, and we love maintaining those relations for eternity. As your trusted web-development partner, we anticipate from you to keep your trust and keep motivating us to provide paramount solutions for you.

EVOLUTION OF XTREEM SOLUTION

Xtreem Solution - A peek down the memory lane

"Once upon a time... there was a dream, and an idea to turn it to reality."

It is well said that 'necessity is the mother of invention', and necessity was the reason behind establishment of Xtreem Solution. A duo of two lively people, Mr. Shivratn Jangid and Vikas Jangid, who remained at client's end for a long time, when noticed that the standard of web development solutions offered by the majority of the companies is far below the client's expectations, planned to start a venture which delivers the clients what they actually anticipate and it placed the foundation of Xtreem Solution. And on a fine morning of January 1, 2013, Xtreem Solution came into existence to change the entire perspective of web development arena.

Two-and-a-half years, almost negligible in today's competitive market, and Xtreem Solution grown to be a full-fledged team of 50+ skilled professionals. Started with just 4 people and a couple of clients, today, we are a trusted partner for hundreds of clients from all corners of the world. We have teamed-up with many clients, keeping our existing clients intact with us, and we teamed-up with many leading IT companies across the world.

Through this journey, we revealed many arms and emanations of web design and web development in our arsenal, and we sharpened our arms to use them for something better. One thing that makes us stand apart from the swarm is our zeal of delivering promises. Yes, we made great promises, something which were hard to keep for most of the companies out there, but we kept them, every time.

Securing a place in the hearts of our valued clients have remained our top precedence, and we still toil to conquer the same. Today, we are happy to work with some of the finest and friendliest clients out there. This is a sensation which has a special place in our heart, and which makes us feel special.

A CLEAR WALKTHROUGH

There's a method in which we handle every project and now you know, how it is just as important for us as it is for you to get the details right.

MEETING

Experts examine your queries and needs, produce some ideas by manipulating your imaginations and inspirations and discover what actually you desire as per your business nature.

PLANNING

During this stage, we will research and start analyzing different design studies, alternatively, different ways to represent the idea in terms of various target audience.

DESIGN

Our professional designers come up with your guideline, plug pearls by diving deep and sketch multiple structures, supervision finalize then fascinate to draw samples to approve.

DEVELOPMENT

Completion of functionality and user interface is another part of our work process. Latest and upgraded technologies our preference for better results and long lasting projects.

TESTING

Quality Assurance Team activates to figure out the micro elements to ensure bugs-free broadcasting of our projects. All projects are protected by our testing process.

DELIVERY

All source files and documents dispatch to our clients with full authority and ownership. A part of that handling live project is our responsibility, updating, upgrading and support.

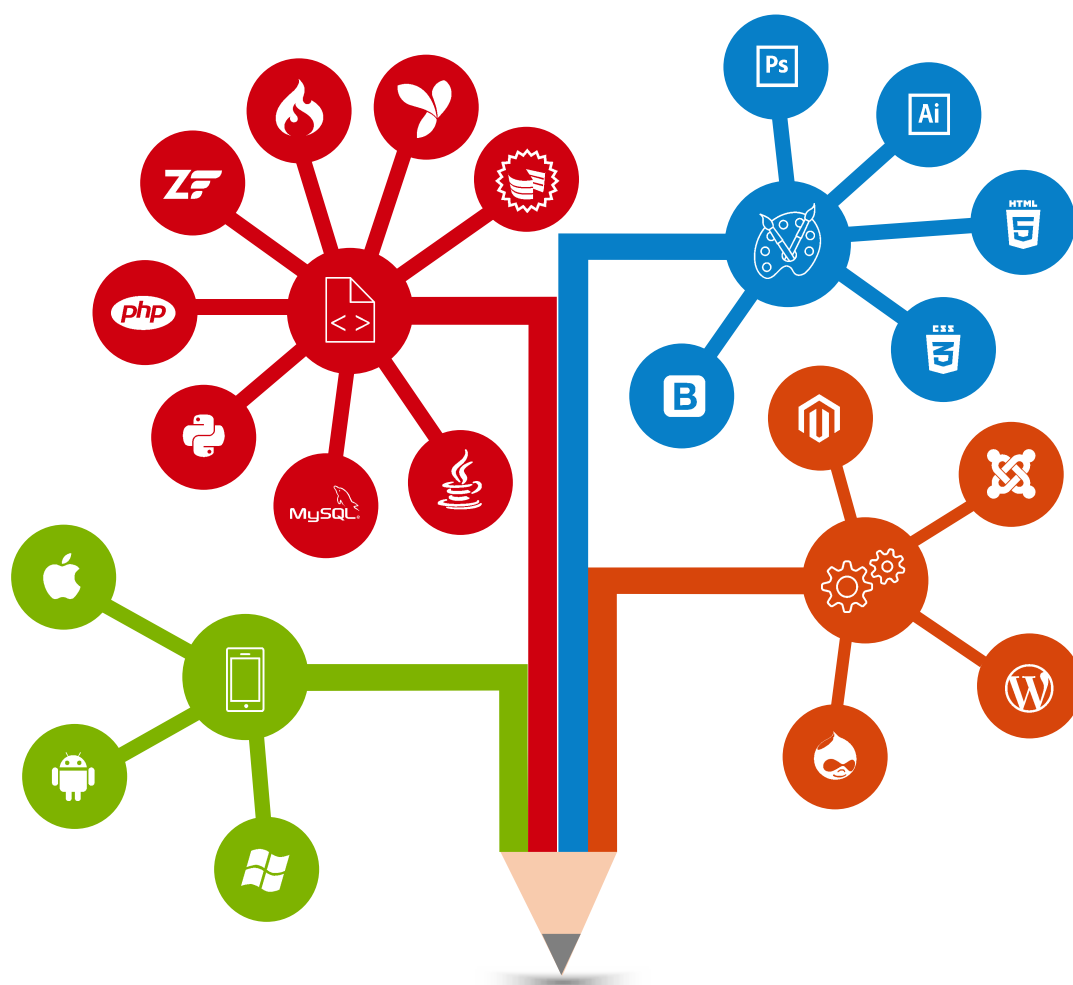

WEB DESIGN

SCREEN RESOLUTION TO DESIGN WEBSITE.

CREATIVE & DESIGN

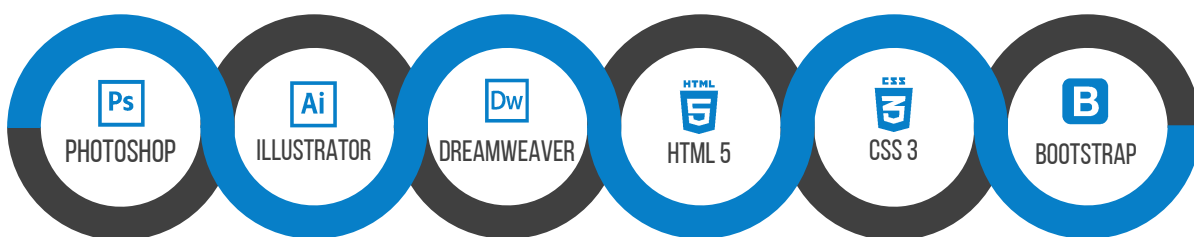

Blending art and technology in the digital world yields the most meaningful interactive experiences.

Thriving on innovation and collaboration, Xtream Solution merges a strategic and thoughtful approach to digital presentation of images, graphics and content to provide a robust online identity for your business. With a right mix of intuition, innovation, creativity, sensibility, ease and intellectual control, our fresh web designs keep the clients hooked to your digital space a.k.a website.

Our sense of designing is a mix of intuition, innovation, creativity and intellectual control. Designing a product and understanding how it filters through into internet and into the rest of the market is very important. We provide such elegant and beautiful designs that the user will get infatuated with the website. Graphics is one of the important things which will be always present in the designs at Xtream Solution

Our approach towards your requirement and innate understanding of design translation provides prolific designs for easy and interesting user experience. Our skilled and proficient team of designers loves to play with colors, graphics and responsive designs to create a sense of amazement for your business.

TECHNOLOGY WE ARE USING FOR DESIGN

We give a lot of emphasis to the technology to provide our client with the best quality services. We are experts in HTML5, CSS3. We are facile in using Bootstrap technology. We make the responsive designs to dance on our tunes. Adobe Photoshop and Adobe Dreamweaver are two of the most important tools on which designing at Xtream Solution relies on. But then, give us a new technology to experiment with and our experimental temperament kicks in to ace it.

UI/UX DESIGN

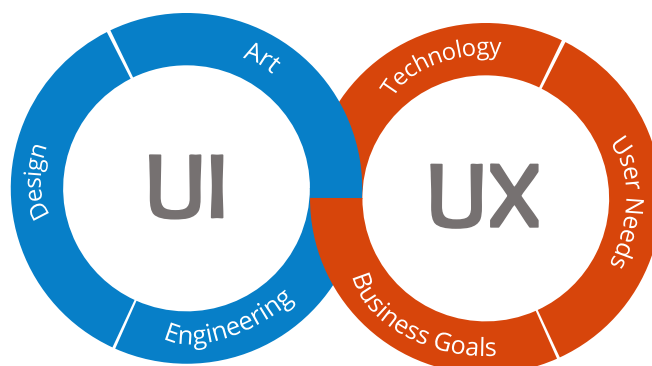

We specialize in handcrafting beautiful UI & UX designs for startups and established businesses across the globe.

Perfection is achieved, not when there is nothing more to add, but when there is nothing left to take away.

At XtreamSolution all the developers follow this principal. Developers at XtreamSolution are more logical in their approach. It's their logical approach which provides the highest level of satisfaction to the client and the perfect functionality to the website. With vast knowledge and experience of working on many domains, our expert web developers have completed many complex projects in different domains including Ecommerce portals, Hospitality industry, Reputation and review management portals, Education portals, Medical etc.

Our opulent and extravagant custom web development services have produced highly positive results in the business of our prestigious clients. Xtream Solution provides all the web development services based on PHP. We are the PHP masters.

At Xtream Solution, PHP is the base of all kind of web development services we provide. Our developers are very experienced and skillful. We are very competent in PHP5 and MySQL. We have accomplished ourselves in developing web applications using PHP frameworks. We have immense experience in CakePHP, Zend framework, CodeIgnitor and Yii. CakePHP framework is our forte; we are becoming a benchmark for the CakePHP in the world of web development but web development at Xtream Solution will always remain versatile in the technology.

MOBILE APPLICATION DEVELOPMENT

Everything we design is intended to be beautiful, compelling and clear in its purpose, while fitting to your identity.

Finding new ways to make your brand interact with its clients becomes pretty simple with relevant mobile applications. Made for 'on-the-go' clients, they create a platform for your 'on-the-go' business. They engage, they educate and they keep the momentum going by creating more visibility and easy access services.

We provide end-to-end services on mobile app development to create a deeply integrated business system. Providing easy-to-use, no fuss, simple, accurate, fast and relevant mobile apps, we offer complete support and maintenance towards mobile web applications, app security, cross-platform apps and native mobile apps.

TECHNOLOGY MOBILE APPLICATION

Java programming is the base of the android apps development. We use Android SDK and different frameworks for the android application development. IOS apps are built by using XCode and Cocoa framework with Objective-C as the base language. The XCode interface seamlessly integrates code editing, UI design with Interface Builder, testing, and debugging, all within a single window and the Cocoa framework consist of libraries, APIs, and runtimes that form the development layer for all of OS X.

CMS DEVELOPMENT

We use sufficiently advanced technology to fascinate your business online.

At the rapidly changing and fluidly moving business world, an owner certainly wants to keep some control over managing the online presence of his venture. CMS or Content Management System is an easy system to help non-technical users to handle the web space on their own, without any expertise or knowledge of coding. This helps business owner to save a lot on their time and finances.

Xtreem Solution helps set up a CMS solution for its clients as per their ease and requirement. Using a varied number of existing CMS platforms, we let our clients take control of their valued business in a non-hassled manner.

OUR TECHNOLOGY FOR CMS

We use WordPress, Joomla, Magento and Drupal for providing CMS services. We have experienced and proficient developers for all the platforms, who can develop anything from a simple setup to complex extensions, plugins and intricate components.

TESTIMONIAL

Take note from our clients about us.

I like to work together with xtreemsolution - they are always in time and deliver good quality. I'll choose them again the next time.

MAXB...

Built both my iOS and Android Applications This team is very capable; it's like having your own team of engineers. They are friendly and will inform you in detail regarding the specifics of your project. They are very helpful and overall a joy to work with, treat this team with respect and they will deliver an amazing product.

J.L BESICHE

Extreemsolution, have been amazing. They are quick to respond to my questions and have created a professional, modern and engaging website. I have used various freelancers on e-lance for website design work and Extreemsolution has blown them all out of the water! I will be using them again, and I would highly recommend you give them a try too!

TOM

Very good job, we were satisfied with XTreem Solutions. It is hard to find the good designers and share your complex ideas remotely, but we were success. They were flexible, and when we provided more exact instructions for some items, the changes delivered within few minutes and they were able to continue alone and do the same for all other items. They took care every kind of details, I really loved to work with them.

GABOR

Xtreemsolution has done a great job with our new product website. They are extremely responsive to all forms of communication, and are always available via email and Skype. They have a wide range of expertise and are able to create unique designs and build websites that incorporate a number of custom coded integrations. I highly recommend the Xtreemsolution team, as they are extremely professional and we plan to use them for future projects.

R... WILLIAMS

I've had many failed projects from India and paid Thousands of lost dollars. This experience is different! This team is truly professional and capable! Thank you for changing my mind about outsourcing! I will be hiring again for sure and already have!
