COMPANY BACKGROUND

"Mobile apps have changed the world. We are changing the world now"

- ▶ We are a web and mobile software development studio, that is focused on creating outstanding mobile and desktop apps, and also beautiful web sites.
- ▶ OpenGeeksLab is a dedicated group of Mobile App developers.
- ▶ We design/develop and deploy awesome iPhone / iPad and Android applications using Native SDKs and React Native (iOS, Android).
- ▶ We provide high quality code, high performance and real-time data updating. We enjoy smooth conversation and we highly appreciate our clients to be in comfort, while their ideas are being carried out.

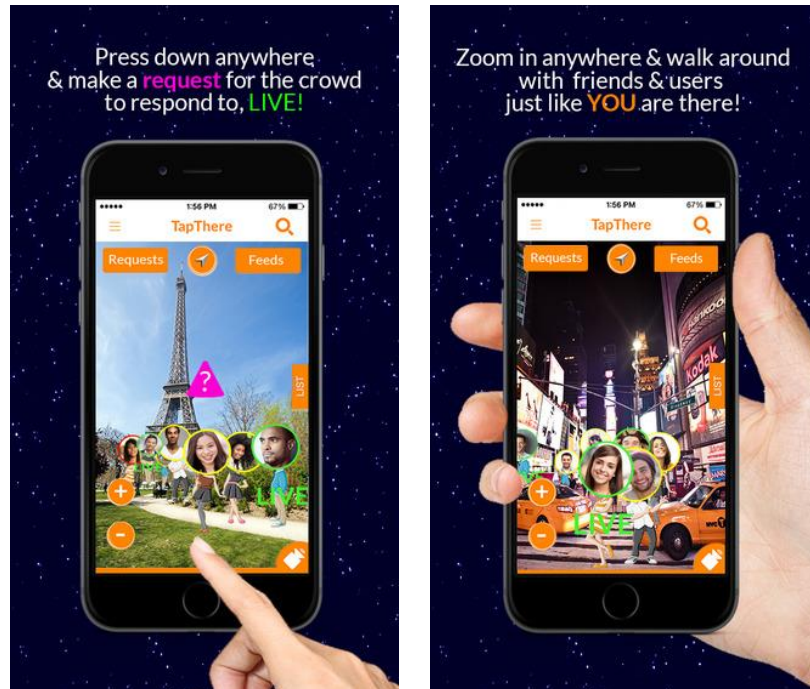

React Native;	Objective-C/Swift;	MEAN Stack development (Mongo, Express, Angular, Node.js);
Node.js / JavaScript / CoffeeScript; - Angular.js / Backbone.js / Ember.js;	Electron, Atom; - NoSQL / MongoDB / CouchDB / Redis / RabbitMQ;	SQL / MySQL / PostgreSQL / SQLite.
